

It didn't take long for Seth to realize his teleportation machine had screwed up. There was another organism inside the machine with him during the test – a fly. And judging from his transformed gender as well – a female fly, in particular. But he was sure he could reverse the process and separate his human DNA from the fly's. He just needed to concentrate.

But concentration was difficult to achieve. While his human instincts wanted to focus on the problem, the fly parts of him were easily distracted. He found himself drawn to a light in his basement for several hours; he did nothing but just stare at it, occasionally touching it. And then he smelt something.

He head jerked around in a distinctively insectoid manner. The smell was so good. He wandered upstairs to his cupboard to locate a large bag of sugar. He ate it all in one sitting and still wanted more. His nose picked up another sweet smell, and this time he began pouring out the garbage and eating it.

There was a part of him that was still telling him that eating garbage was gross; it made him want to vomit. But the other part of him seemed to welcome the idea of vomiting as part of this magnificent feast, and that this might be the perfect place to start laying some eggs.

Andre's search for his original male body takes him through a series of physically and spiritually disorienting sexual encounters to an unexpected denouement during an Agape ceremony in the temple of a strange hedonistic cult. No wonder Foundation called the book A powerful tale of biological transformation and sexual identity. Or that 20th Century Science Fiction Writers hailed it as A special combination of science fiction and pornographic detail and rhetoric. The quality of the novel artistically justifies this radical strategy. In 1995 the book was filmed as Synapse U.K. as Memory Run introducing its unique mix of transgender and science fiction to a whole new audience. This paperback edition contains a new Afterword and a Filmography listing cast crew production credits. Here is what other critics say about this classic work. *Razorblade fiction*. The Magazine of Fantasy and Science Fiction. Where science fiction is often male chauvinist, this might raise male consciousness. *Worlds Beyond: A Critical History of Science Fiction*. A good SF book and a rather better novel. *qua novel*. Stine never offers an explicit sexual scene in standard cliché pornographical terms; each description brings a personal and original observation into play. Many of these observations are not erotic; they may even strike some readers as anti-erotic, but they ring with truth. A genuine work of erotic realism written far above the standards of pornography. The body of the novel lies in the male protagonist's response to biological and physical constraints and the transformation of his personality forced upon him by his female body. Effective, rich, rewarding, engrossing and unusual, littered with genuine insights. Ted White, editor, *Heavy Metal*. What happens to a man's mind in a woman's body? Stine makes you inhabit that mind and slowly imperceptibly absorbs you into the existence of a woman until you, as a man, no longer exist. You become a woman, different from the one you raped and killed, and a better woman, at the end. Stine is a remarkable writer, both for style, which is turgid with evocative detail and intense psychological insight, and for use of the second person technique, which in fiction is used very infrequently but which is required for the Punishment and Retribution parts in this book. There is eroticism in the book. The sex act is the most important sphere of life for this book, for Stine, for you, in the working out of the changes of psyche involved, and it is there that Stine takes you to show the subtle altering of man to woman in the body of Josette Kovacs. *deceased*. Science Fiction Review. Passion, pain, real pluck, a good eye for physical detail and a strong feeling for the human predicament. Fritz Leiber. *Fantastic*. Jean Marie Stine has been editor of *Galaxy SF* and *Starblaze Books* and is currently editor of *Futures Past Editions*. Her short stories have appeared in numerous publications including *Amazing Stories*, *Galaxy*, *Pegasus* and *SF Sagas* and are collected in *Herstory* and in the 1970s she wrote the now classic *The Prisoner*. A Day in the Life based on the cult television series starring Patrick McGouhan. Cover image and book design: Frankie Hill. *The Dial*. Francis Fisher Browne, Scofield Thayer, Waldo Ralph Browne, 1898. **The Magazine of Fantasy & Science Fiction**, 1984.
