Desiring Thai Men Narupon Duangwises, Narupon, Peter A. Jackson, 2025-10-15 *Desiring Thai Men* traces the transformative influence of vernacular Thai language media on Thailand's gay communities from the 1980s through the 2010s. Narupon Duangwises and Peter A. Jackson analyze dramatic changes in the visual representation and languaging of masculine desire and sexual identity among Thai gay men that were reflected in Thai gay magazines and gendered practices in Bangkok's gay bars, fitness centers, and video chatrooms. Multiple masculine identities emerged in Thailand's communities of men who have sex with men from the intersecting influences of commercial gay media and gay venues. Distinctive class-based contextualized and flexible masculinities evolved among ethnically diverse Thai gay men in a capitalist setting of print and online media and expanding consumerist lifestyles. *Desiring Thai Men* argues that evolving forms of masculinity among Thai men who pursue men offer insights for reexamining class dynamics in transnational queer and media studies and for the applicability of hegemonic masculinity beyond Western contexts.

Toms and Dees Megan J. Sinnott, 2004-06-30 A vibrant growing and highly visible set of female identities has emerged in Thailand known as tom and dee. A tom from tomboy refers to a masculine woman who is sexually involved with a feminine partner or dee from lady. The patterning of female same-sex relationships into masculine and feminine pairs coupled with the use of English-derived terms to refer to them is found throughout East and Southeast Asia. Have the forces of capitalism facilitated the dissemination of Western-style gay and lesbian identities throughout the developing world as some theories of transnationalism suggest? Is the emergence of toms and dees over the past twenty-five years a sign that this has occurred in Thailand? Megan Sinnott engages these issues by examining the local culture and historical context of female same-sex eroticism and female masculinity in Thailand. Drawing on a broad spectrum of anthropological literature, Sinnott situates Thai tom and dee subculture within the global trend of increasingly hybridized sexual and gender identities.

A History of Manners and Civility in Thailand Patrick Jory, 2021-01-07 An innovative new social history of Thailand told through the lens of changing ideals of manners, civility, and behaviour.

Gender Across Languages Marlis Hellinger, Heiko Motschenbacher, 2015-04-15 This is the fourth volume of a comprehensive reference work which provides systematic descriptions of the manifestations of gender in languages of diverse areal, typological, and socio-cultural affiliations. To the 30 languages already analysed in previous volumes, Vol 4 adds another 12 languages whose gendered structures have received little or no academic attention in the past. Again the collection includes a broad spectrum of languages. It contains languages with and without grammatical gender, a language with noun classification, and a classifier language. Larger national languages as well as smaller languages with minority status and of course members of diverse language families, i.e. Indo-European as well as Finno-Ugric, Iroquoian, Tai-Kadai, and Niger-Congo. The volume illustrates the tremendous variation found in the area of gender representation across languages. At the same time, it will provide the much-needed material required for an explicitly comparative approach to linguistic
