## **Thames And Hudson Dictionary Of Design Since 1900:**

**The Thames & Hudson Dictionary of Design Since 1900** Guy Julier, 2005 Guy Julier examines not only the work of important designers worldwide but also the many dramatic changes that have influenced design and its uses since 1900. Thus political and ideological concepts such as feminism and green design are defined and explained as are technological advances, new materials and techniques and influential movements in modern culture. The text incorporates extensive cross referencing and full bibliographical notes along with a chronological chart of design highlights. *The Design History Reader* Grace Lees-Maffei, Rebecca Houze, 2024-12-12 This revised and updated edition addresses the international history and practice of design from the 17th century to the present day. Covering both primary texts by social theorists, designers and design reformers and secondary texts in the form of key works of design history and design thinking, the Reader provides an essential resource for understanding the history of design, the development of the discipline and contemporary issues in design history and practice, including decolonization, sustainability, historiography, gender and globalization. Extracts are grouped into thematic sections, each with a contextualizing introduction by the editors and a guide to further reading. The updated edition of *The Design History Reader* expands upon its original content and features numerous significant voices from across the globe. Authors include William Morris, Karl Marx, Roland Barthes, Victor Margolin, Penny Sparke, Judy Attfield, Ellen Lupton and many more. *Know it All, Find it Fast* Robert John Duckett, Bob Duckett, Peter Walker, Christine Donnelly, 2008 There is a queue, the phone is ringing, the photocopier has jammed and your enquirer is waiting for a response. You are stressed and you can feel the panic rising. Where do you go to find the information you need to answer the question promptly and accurately? Answering queries from users is one of the most important services undertaken by library and information staff. Yet it is also one of the most difficult, least understood subjects. There are still very few materials available to help frontline staff often paraprofessionals develop their reader enquiry skills. This award winning sourcebook is an essential guide to where to look to find the answers quickly. It is designed as a first point of reference for library and information practitioners to be depended upon if they are unfamiliar with the subject of an enquiry or wish to find out more. It is arranged in an easily searchable, fully cross referenced A-Z list of around 150 of the subject areas most frequently handled at enquiry desks. Each subject entry lists the most important information sources and where to locate them, including printed and electronic sources, relevant websites and useful contacts for referral purposes. The authors use their extensive experience in reference work to offer useful tips, warn of potential pitfalls and spotlight typical queries and how to tackle them. This new edition has been brought right up to date with all sources checked for currency and many new ones added. The searchability is enhanced by a comprehensive index to make those essential sources even easier to find, saving you valuable minutes. *Readership* Offering quick and easy pointers to a multitude of information sources, this is an invaluable reference deskbook for all library and information staff in need of a speedy answer in reference libraries, subject departments and other

information units     Interior Design Masters Mark Hinchman, Elyssa Yoneda, 2018-06-27 Interior Design Masters contains 300 biographical entries of people who have significantly impacted design. They are the people historical and contemporary that students and practitioners should know. Coverage starts in the late Renaissance with a focus on the twentieth and twenty-first centuries. The book has five sections with the entries alphabetical in each so it can serve as a history textbook and a reference guide. The seventeenth and eighteenth century section covers figures from Thomas Chippendale to Horace Walpole. The nineteenth century section includes William Morris and Candace Wheeler. The early twentieth century section presents modernism's design heroes including Marcel Breuer, Eileen Gray, and Gilbert Rohde. The post World War II designers range from Madeleine Castaing to Raymond Loewy. The final contemporary section includes Ron Arad and the Bouroullec brothers. These are the canonical figures who belong to any design history. The book also contains less well-known figures who deserve attention such as Betty Joel, the British art deco furniture designer Paul Veyseyre, the Frenchman active in China in the 1930s, and more recently Lanzavecchia Wai, the Italian Singaporean duo whose work ranges from health care to helicopters. Global in its coverage, the book is richly illustrated with over 600 black and white and color photographs.     **Design** Anne Bony, 2005.
