and location of cathedrals stone and wood carvings gargoyles the teachings of Pythagoras and the later Neo Platonists and more For the general reader and specialist alike Dr Ralls guides the reader through the history places art and symbolism of these unique books in stone providing a lively portal and solid resource for all Lavishly illustrated with color photographs a recommended reading section lists of the major European cathedral sites and a full Bibliography Gothic Cathedrals is a fascinating showcase of the mystic and spiritual symbolism found in these great structures of Europe information that will help modern readers visit these sites and share in the energy of the sacred they continue to radiate *Learning with the Labyrinth* Jan Sellers, Bernard Moss, 2016-04-15 This book discusses the theory and practice of labyrinth creation and use From issues of design and cost to how a labyrinth may be used as a university wide resource and also be used for outreach to the wider community it covers labyrinth use Within disciplines such as initiatives to deepen reflection and explore contemplative approaches to learning In wider university contexts such as counselling chaplaincy learning and educational development widening participation and student transition Across the whole university and reaching out to the wider community of which the university is a part from the labyrinth as a conference resource as well as topic to festival contributions Learning with the Labyrinth seeks to illustrate inspire and share ideas that can be taken further by the reader
