**A Forensic Approach to Political and State Violence** David Crighton, 2025-07-25 A Forensic Approach to Political and State Violence applies a forensic lens to the study of risk in relation to political and state violence Divided into three parts the book outlines the nature and function of political and state violence and the historic development of contributions from forensic practice It then considers the distinction between political and state violence and the foundations for this This is followed by a review of developments of current research and practice looking at future development and the ways in which forensic practice might more effectively contribute to risk reduction and management The text will argue that the basis of much current forensic practice in relation to political and state violence is unduly limited and has failed to integrate relevant scientific research into practice The role of market led approaches to work in these areas will also be considered in relation to the way this has influenced and distorted practice and delayed progress Drawing on theories derived from psychology and other areas of research the book considers how evidence might inform improvements using the risks and uncertainties that surround politically motivated violence to illustrate this Real cases of political and state violence are considered with topics including military conflict terrorism use of torture and hostage taking to highlight current failings and weaknesses Barriers to implementing better forensic practice in terms of both professional economic and policy interests are also explored It will be an essential read for all students or practitioners in the areas of forensic psychology criminal justice or violence risk management

**State Violence and Legal Accountability** Ceylan Begüm Yıldız, 2025-02-18 This book pursues a critical perspective on the phenomenon of state violence and its legal unaccountability Focusing on the role of myths assumptions and ghosts that surround the meaning of the state and performance of state violence this book details a fresh perspective on that violence and its legal unaccountability It asks How does our understanding of the state reflect on the political demands and legal processes of accountability To pursue this question the book traces the political and legal aftermath of the police killing of a 14 year old boy Berkin Elvan during the nationwide Gezi protests of the summer of 2013 in Turkey Countering imaginaries of the state clash between the state officer s attempt to attribute personal responsibility to Elvan for his own death and public demands for state accountability Meanwhile the prolonged legal process ensures that subjects who seek accountability find themselves in a long and exhausting legal battle which dominates their lives and transforms their subjectivity As the Elvan family continues to wait for accountability and justice this book suggests that waiting and suspense are key elements of legal performance in trials concerning state violence As such and unlike the usual reading of legal violence which focuses on judgement the book explores how this violence and its implications for an understanding of justice and accountability is bound to the very act of waiting This critical interdisciplinary study of state violence and its legal handling will appeal to scholars and students from a wider range of disciplines including law criminology politics sociology and political and legal philosophy
