[Anarchism](#) Benjamin Franks,Nathan Jun,Leonard Williams,2018-03-14

Anarchism is by far the least broadly understood ideology and the least studied academically Though highly influential both historically and in terms of recent social movements anarchism is regularly dismissed Anarchism A Conceptual Approach is a welcome addition to this growing field which is widely debated but poorly understood Occupying a distinctive position in the study of anarchist ideology this volume authored by a handpicked group of established and rising scholars investigates how anarchists often seek to sharpen their message and struggle to determine what ideas and actions are central to their identity Moving beyond defining anarchism as simply an ideology or political theory this book examines the meanings of its key concepts which have been divided into three categories Core Adjacent and Peripheral concepts Each chapter focuses on one important concept shows how anarchists have understood the concept and highlights its relationships to other concepts Although anarchism is often thought of as a political topic the interdisciplinary nature of Anarchism A Conceptual Approach makes it of interest to students and scholars across the social sciences liberal arts and the humanities

[Nation Games](#) Benjamin Zachariah,2020-08-10 This volume examines

the tension between the nation idea as a necessary language of legitimacy with which to claim liberation and its role in disciplining people and their identities in India in the name of national liberation It is an attempt to open up new lines of thinking and ways of reading Indian history     **The Palgrave Handbook of Women and Gender in Twentieth-Century Russia and the Soviet Union** Melanie Ilic,2017-11-30 This handbook brings together recent and emerging research in the broad areas of women and gender studies focusing on pre revolutionary Russia the Soviet Union and the post Soviet Russian Federation For the Soviet period in particular individual chapters extend the geographic coverage of the book beyond Russia itself to examine women and gender relations in the Soviet East Tatarstan Central Asia Kazakhstan Tajikistan and Uzbekistan and the Baltic States Estonia Latvia and Lithuania Within the boundaries of the Russian Federation the scope moves beyond the typically studied urban centres of Moscow and St Petersburg to examine the regions Krasnodar Novosibirsk rural societies and village life Its chapters examine the construction of gender identities and shifts in gender roles during the twentieth century as well as the changing status and roles of women vis a vis men in Soviet political institutions the workplaceand society more generally This volume draws on a broad range of disciplinary and methodological approaches currently being employed in the academic field of Russian studies The origins of the individual contributions can be identified in a range of conventional subject disciplines history literature sociology political science cultural studies but the chapters also adopt a cross and inter disciplinary approach to the topic of study This handbook therefore builds on and extends the foundations of Russian women s and gender studies as it has emerged and developed in recent decades and demonstrate the international indeed global reach of such research     Infrastructural Brutalism Michael Truscello,2020-09-01 How drowned town literature road movies energy landscape photography and death train narratives represent the brutality of industrial infrastructures In this book Michael Truscello looks at the industrial infrastructure not as an invisible system of connectivity and mobility that keeps capitalism humming in the background but as a manufactured miasma of despair toxicity and death Truscello terms this infrastructural brutalism a formulation that not only alludes to the historical nexus of infrastructure and the concrete aesthetic of Brutalist architecture but also describes the ecological political and psychological brutality of industrial infrastructures Truscello explores the necropolitics of infrastructure how infrastructure determines who may live and who must die through the lens of artistic media He examines the white settler nostalgia of drowned town fiction written after the Tennessee Valley Authority flooded rural areas for hydroelectric projects argues that the road movie represents a struggle with liberal governmentality considers the ruins of oil capitalism as seen in photographic landscapes of postindustrial waste and offers an account of death train narratives ranging from the history of the Holocaust to postapocalyptic fiction Finally he calls for brisantic politics a culture of unmaking that is capable of slowing the advance of capitalist suicide Brisance refers to the shattering effect of an explosive but Truscello uses the term to signal a variety of practices for defeating infrastructural power Brisantic politics he warns would require a reorientation of radical politics

toward infrastructure sabotage and cascading destruction in an interconnected world

**The Philosopher Li Zehou** Jana S. Rošker, Roger T. Ames, 2025-05-01 Deepens our understanding of this contemporary Chinese thinker's philosophy and its significance Li Zehou 1930-2021 was one of China's most prominent contemporary philosophers transforming Confucian philosophy into a resource for positive change. From a critical rereading of the Analects to a formulation of his own aesthetic theory Li reinterpreted the tradition from earliest times down to the present day. In this effort he was inspired by Marx and Kant but was neither a Marxist nor a Kantian. Nor was he a Confucian. He was and remains an original. The philosopher Li Zehou. In this volume Chinese, European and US scholars explore Li's contributions to Chinese philosophy and culture, deepening our understanding of his philosophy and its significance while also celebrating the intellectual diversity and richness of Chinese philosophical thought. In a passionate and dedicated endeavor to ensure that Li's philosophy endures and continues to inspire scholars, particularly the younger generation of academics both in China and around the world, the volume aims to serve as a catalyst for ongoing scholarship and discourse on the work of the philosopher Li Zehou.

**Movements of Movements** Jai Sen, 2018-02-01 Our world today is not only a world in crisis but also a world in profound movement with increasing numbers of people joining or forming movements local, national, transnational and global. The dazzling diversity of ideas and experiences recorded in this collection captures something of the fluidity within campaigns for a more equitable planet. This book takes internationalism seriously without tired dogmas, providing a bracing window into some of the central ideas to have emerged from within grassroots struggles from 2006 to 2010. The essays here cross borders to look at the politics of caste, class, gender, religion and indigeneity and move from the local to the global. Rethinking Our Dance, the second of two volumes, offers a wide range of essays from frontline activists in Afghanistan, Argentina, Brazil, Niger and Taiwan as well as from Europe and North America that address the question: What do we need to do in order to bring about justice and peace? The Movements of Movements aims to make the bewildering range of contemporary movements more meaningful to the observer and also to be a space where global movements speak to each other. This book will be useful to all who work for egalitarian social change, be they in universities, parties, trade unions, social movements or religious organisations. Contributors include Kolya Abramsky, Ezequiel Adamovsky, Ousseina Alidou, Samir Amin, Chris Carlsson, John Brown, Childs Lee, Cormie, Anila Daulatzai, Massimo De Angelis, The Free Association, David Graeber, Josephine Ho, John Holloway, François Houtart, Jeffrey Juris, Michael Levy, Tomás Mac Sheoin, Matt Meyer, Muto Ichiyo, Rodrigo Nunes, Michał Osterweil, Shailja Patel, Geoffrey Pleyers, Stephanie Ross and Nicola Yeates.

**Seeking Identity** Raymond A. Belliotti, 1995 Outlining the unwritten but deeply ingrained system of moral codes that Italian immigrants brought to America, Belliotti examines that system in relation to moral theorists who argue we owe the most to people close to us and those who contend we must attach no special weight to our own interests when determining proper moral action. He also investigates philosophical, historical, sociological and political aspects of government authority, examines conflicting images of Italian

immigrant women and analyzes war and pacifism     **After the Last Post** Benjamin Zachariah, 2019-07-22 This book is about the production and consumption of history themes that have gained in importance since the discipline's attempts to disavow its own authority with the ascendancy of postmodern and postcolonial perspectives. Several parallel themes crosscut the book's central focus on the discipline of history: its intellectual history, its historiography, and its connection to memory, particularly in relation to the need to establish the collective identity of nation, community, or state through a memorialisation process that has much to do with history or at least with claiming a historicity for collective memory. None of this can be undertaken without an understanding of the roles that history writing and history reading have been made to perform in public debates or perhaps more accurately in public disputes. The book addresses a discomfort with postcolonial theories in and as history. Following are essays that examine the state of the discipline, the art of reading and using archives, practices of tracking the history of ideas and the themes of history, memory and identity     The Poverty of Statism Nikolai

Bukharin, Rudolf Rocker, Luigi Fabbri, 1981     **Encyclopedia of Political Anarchy** Kathlyn Gay, Martin K. Gay, 1999-04-12 Examines the ancient roots of the movement, key individuals and important organizations, events, laws, court cases, and theories     **STATISM AND ANARCHY** Mikhail Bakunin, Statisme dan Anarki merupakan satu satunya karya besar Bakunin dari periode anarkis yang ditulisnya di Rusia bukan di Perancis. Disusun pada musim panas 1873. Mikhail Alexandrovich Bakunin adalah anarkis revolusioner Rusia dan pendiri anarkisme kolektif. Dia dianggap sebagai tokoh anarkisme yang paling berpengaruh dan pendiri utama tradisi anarkis sosial. Wibawa besar Bakunin sebagai aktivis menjadikan dirinya salah satu ideolog yang paling terkenal di Eropa. Dia sangat berpengaruh di kalangan kaum radikal di seluruh Rusia dan Eropa.

**Anarchy**, 1917     **Anarchist Studies**, 1999     **A Philosophy of Concrete Life** Mika Ojakangas, 2004 Carl Schmitt is one of the most influential political and legal theorists of the 20th century. His ideas have long been familiar to intellectuals in Europe. Despite growing interest in Schmitt, the analysis of the metaphysical structure and logic of Schmitt's political thought is still missing. This book tries to redress this flaw. It focuses on Schmitt's conception of the concrete, which is seen as the metaphysical core of his writings. For Schmitt, the concrete is a condition of possibility of any order. Rather than a concept, it is a name for a borderline or a passage between a concept and life, between a mediating idea and an immediate existence. In addition to the structure and logic of Schmitt's thought, the book is a short presentation of all central themes in Schmitt's writings from *Political Theology* 1922 to *The Nomos of the Earth* 1950     *The Anarchist Tradition and Other Essays* Max Nomad, 1967     *Black Flame* Lucien Van der Walt, Michael Schmidt, 2009 Part one of a two part history of the non Marxist libertarian form of socialism aka anarchism. From its origins in the 18th century and the conflicts with Marx in the First International to insurrections, trade unions and specific anarchist organisations, the hidden history of an alternative tradition is revealed. The ideas about socialism so prevalent today that it equates with state ownership that is the prerogative of the Party that it has somehow failed are all dismantled in this scholarly engagement with a complex ideology     **The Anarchist**

**Papers 3** Dimitrios I. Roussopoulos, 1990 This volume includes essays on the French Revolution dissidence in East Germany and Poland a critique of science a debate between science and religion and the conflict between neoconservatism and social ecology and a contemporary analysis of power
