environment education family social problems ethnicity race religion gender government public policy and regional diversity
 The authors are especially effective in demonstrating why rural America is so much more than just agriculture It is in fact
 highly diverse complex and interdependent with urban America and the international market place Most major rural
 problems they contend simply cannot be effectively addressed in isolation from their urban and international connections To
 do so is misguided and even hazardous when one fourth of our population and ninety seven per cent of our land area is rural
 Together these writings not only provide a new and more realistic view of rural life and public policy but also suggest how
