The Official Centenary History Of The Amateur Athletic Association:

Amateurs and Professionals in Post-War British Sport Dilwyn Porter, Adrian Smith, 2014-04-08 The pressures and demands of professionalism and commercialization have transformed Britain's sports. At the end of the 20th century sports have been packaged and marketed as mass entertainment for a national or even international audience. This volume explores different facets of this phenomenon. The Official Centenary History of the Amateur Athletic Association Peter Lovesey, 1979-01-01 **Britain and the Olympic Games, 1908-1920** Luke J. Harris, 2016-04-29 Britain and the Olympic Games 1908-1920 focuses upon the presentation and descriptions of identity that are presented through the depictions of the Olympics in the national press. This book breaks Britain down into its four nations and presents the debates that were present within their national press. *British Sport* Richard William Cox, 2003 Volume three of a bibliography documenting all that has been written in the English language on the history of sport and physical education in Britain. It lists all secondary source material including reference works in a classified order to meet the needs of the sports historian. British Sport: a Bibliography to 2000 Richard Cox, 2013-12-16 Volume one of a bibliography documenting all that has been written in the English language on the history of sport and physical education in Britain. It lists all secondary source material including reference works in a classified order to meet the needs of the sports historian. Sport's Relationship with Other Leisure Industries Benjamin Litherland, Dion Georgiou, 2017-01-12 This innovative and timely volume of essays critically interrogates the shared histories between sport and a variety of leisure, entertainment and cultural pursuits. Utilizing a range of historical methods and sources, they describe how sport has interacted with a broad range of leisure forms including tourism, shopping, theatre, circus, carnival and film. Sport and the Making of Britain Derek Birley, 1993-12-15 This lively and stimulating book looks at some of the myths and realities surrounding Britain's legendary enthusiasm for sport and aims to chronicle how sporting traditions were shaped and how they in turn contributed to the shaping of British social conventions and attitudes.

Century of the Marathon, 1896-1996 Riël Hauman, 1996 *An Athletics Compendium*, 2001 The genesis for this book was a 1969 compilation in which Peter Lovesey and Tom McNab described all books on track and field to date. Both authors have had a lifetime interest and involvement in athletics and the present work builds on that knowledge and expertise to give the reader a definitive guide to the UK literature of track and field. This super bibliography includes an extensive introductory overview of the literature by Tom McNab as well as annotations contributed by all three compilers. The compendium covers the history, theory and practice and personalities of athletics as well as special chapters on athletics in literature and the visual arts. **The Story of World Rowing** Christopher Dodd, 1992 In this panoramic book the author traces the evolution of rowing from the Vikings and Venetians to the modern era of top flight coaching and international competition. Rowing has come a long way since 168 oarsmen hauled the Doge of Venice along in his golden barge or since Cambridge crews floated about in the days of British amateurism. This century has seen rowing as a sport transformed by the

impact of scientific methods and great coaches and by the crushing dominance of the East Germans Competitive and amateur rowing has many of its origins in Britain and the author examines the development of some of the great events such as Henley Royal Regatta the Olympic Games and the European and World Championships The author is the Rowing and Deputy Features Editor of The Guardian newspaper Encyclopedia of British Sport Richard Cox, Wray Vamplew, Grant Jarvie, 2000-12-05 Includes entries on individual sports from football to fencing and polo to pigeon racing the London Marathon the Grand National the Isle of Man TT races the Olympic Games the F A Cup Test Matches the Boat Race Wimbledon Wembley Stadium and much more key issues such as fair play gender racism commercialization professionalism alcohol and drugs the sociology psychology and language of sport and sport in drama film literature and the visual arts BOOK JACKET *De gids* Everhardus Johannes Potgieter, Johan Theodoor Buijjs, Pieter Nicolaas Muller, Hendrik Peter Godfried Quack, Jakob Nikolaas van Hall, 2003 *Sport and Society in Victorian Ireland* Tom Hunt, 2007 This book examines the development of sports in Victorian Ireland using the example of Westmeath as a case study It explores the development of hunting racing commercial sports golf cycling and tennis cricket hurling and football soccer and rugby It also examines the importance of spectator sports and a variety of ancillary attractions It examines the importance of the club as a vehicle for facilitating sporting involvement the financing of sports and recreation the commercialization of sports and the importance of codification It also constructs a social profile of individuals active in the various sports The role of sports in providing recreational opportunities for women is examined as is the importance of the military to sports promotion and the importance of sports to the military The book illustrates the importance of sport in creating a social life for participants at all levels of society The crucial importance of post 1900 developments in cultural nationalism and their impact on recreational activities and in particular the re emergence of the GAA are also investigated The information is placed in a comparative context and links Westmeath to the Irish sporting world and places the developments in Westmeath within the sporting revolution of the wider Victorian world The book demolishes various established ideas of the Victorian sporting world in rural Ireland and enhances our understanding of what games people were playing and why they played them The range of sports examined contributes to the production of an inclusive and comprehensive study that enhances our understanding of the social history of several groups in society *Library of Congress Catalogs* Library of Congress, 1980 **The 1948 Olympics** Bob Phillips, 2007 The 1948 Olympics were the first of the post war era Britain was still suffering the after effects of the war rationing still in operation bomb sites remained throughout London and other major cities Yet London took on the Games and staged them very successfully There was no election of London as the chosen venue the IOC decided on London without any vote This book tells how the Games were managed and their economic political and social significance including first hand recollections of many of the competitors and of the press correspondents **Subject Catalog** Library of Congress, 1980-04 **Subject Catalog, 1980** Library of Congress, 1980 **The Modern Olympics** David C.
