**Eighteenth-Century Thought** Ruth Smith,1995-05-04 In this wide r anging and challenging book Ruth Smith claims that the words to Handel s oratorios reflect the events and ideas of their time and have far greater meaning than has hitherto been realised She explores eighteenth century literature music aesthetics politics and religion to reveal Handel s texts as conduits for the thought and sensibility of their time The book thus enriches our understanding of Handel his times and the close relationship between music and its intellectual contexts      **The Oratorios of Handel** Percy Marshall

Smither,2012-09-01 Written by an eminent scholar in a style that represents American musicological writing at its communicative best A History of the Oratorio offers a synthesis and critical appraisal so exhaustive and reliable that the serious student of the oratorio will be compelled to look to these volumes as an indispensable source No work on the history of the oratorio has yet appeared in the English language that is comparable in scope and treatment with Howard Smither s comprehensive four volume work The first part of volume

2 examines in depth the antecedents and origins of the oratorio in Protestant Germany in the seventeenth century. It includes discussions of the Lutheran Historia sacred dramatic dialogues and the Lubeck Abendmusiken of Buxtehude. The second part treats the oratorio in Protestant Germany in the early eighteenth century and examines Handel Reinhard Keiser and J S Bach. The third part considers primarily the English oratorios of Handel. In most sections of *A History of the Oratorio* the author has selected for special attention a few oratorios that are representative of each geographical area and period. An exception to this procedure is in the section on Handel in this volume where all of the composer's English oratorios are treated fully with particular reference to recent specialized Handel studies. Volume 1 *The Oratorio in the Baroque Era* Italy Vienna Paris and Volume 3 *The Oratorio in the Classical Era* expand and continue the study of oratorio history. Although this series was originally announced as a three volume study Smither will conclude with a fourth volume. Originally published in 1977 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print. These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value. **George Frideric Handel** Marian Van Til, 2007 The author presents a view of Handel's life his character faith and music as his contemporaries saw him.

*A History of the Oratorio: The Oratorio in the Classical Era* Howard E. Smither, 1977 *The Oratorio in the Classical Era* is the third volume of Howard Smither's monumental *History of the Oratorio* continuing his synthesis and critical appraisal of the oratorio. His comprehensive study surpasses in scope and treatment all previous works on the subject. A fourth and final volume on the oratorio in the nineteenth and twentieth centuries is forthcoming. In this volume Smither discusses the Italian oratorio from the 1720s to the early nineteenth century and oratorios from other parts of Europe from the 1750s to the nineteenth century. Drawing on works that represent various types languages and geographical areas Smither treats the general characteristics of oratorio libretto and music and analyzes twenty two oratorios from Italy England Germany France and Russia. He synthesizes the results of specialized studies and contributes new material based on firsthand study of eighteenth century music manuscripts and printed librettos. Emphasizing the large number of social contexts within which oratorios were heard Smither discusses examples in Italy such as the Congregation of the Oratory lay contrafraternities and educational institutions. He examines oratorio performances in German courts London theaters and English provincial festivals and the Parisian Concert spirituel. Though the volume concentrates primarily on eighteenth century oratorio from the early to the late Classical styles Smither includes such transitional works as the oratorios of Jean Francios le Seur in Paris and Stepan Anikievich Degtarev in Moscow. *A History of the Oratorio* is the first full length history of the genre since Arnold Schering's 1911 study. In addition to synthesizing current thought about the oratorio this volume contributes new information on relationships between oratorio librettos and contemporary literary and religious thought and on the musical differences among oratorios from different geographical cultural regions.
