Recently voted the greatest fantasy of all time after *The Lord of the Rings* and *The Hobbit* Gene Wolfe's *The Book of the New Sun* is an extraordinary epic set a million years in the future on an Earth transformed in mysterious and wondrous ways in a time when our present culture is no longer even a memory Severian the central character is a torturer exiled from his guild after falling in love with one of his victims and journeying to the distant city of Thrax armed with his ancient executioner's sword Terminus Est This edition contains the first two volumes of this four volume novel *The Shadow of the Torturer* and *The Claw of the Conciliator*

Suntanning in 20th Century America Kerry Segrave, 2005-09-14 The suntan experienced a profound change in the last century Considered a mark of the lower class for hundreds of years tanning became a fad in the early 1920s and remains popular today The tan though was much more than a matter of fashion enjoying at first a boost from the medical establishment Opinions ranging from hard science to quackery lauded the suntan as something of a panacea Near the end of World War II however researchers increasingly warned against the hazards of overexposure to the sun and a large new industry developed sunscreen Americans current paradoxical obsession with the tan developed almost entirely from the conflicting rays of twentieth century thought This history examines the twentieth century suntan as a social and scientific phenomenon Beginning with the years 1900 1920 it debunks the myth that changing attitudes toward the tan sprang largely from the world of fashion Initial pro tanning medical hype emerging negative opinions of sunbathing near the middle of the century the development of sunscreens the debate over sunscreen efficacy and the sunless tan are all covered here Numerous pictures demonstrate changing perceptions of the suntan displaying advertisements for products that promoted prevented or healed tans

Gene Wolfe Joan Gordon, 1986-01-01 An annotated bibliography and criticism of Gene Wolfe's science fiction and non fiction writing **Federal Register** ,1965 Toward the Origins of Christmas Susan K. Roll, 1995 Christmas exerts an enormous attraction today even apart from its Christian character as a celebration of the incarnation of God in the Person of Jesus Even marginal or indifferent Christians crowd the churches on Christmas Eve and in highly commercialized and technologized Western societies the Christmas season is celebrated with enthusiasm Yet Christmas entered the calendar of feasts relatively late by 336 C E and the reason for its introduction and

quick spread remain speculative and based on fragmentary evidence Towards the Origins of Christmas addresses both the contemporary Western celebration of Christmas and its deep historical roots in the church of the fourth century The book presents a thorough investigation of the patristic texts and evidence cited by liturgical scholars in the late 19th and 20th centuries to support two main theories the Calculation theory and the History of Religions theory This historical research is set in the framework of the contemporary experience of Christmas the dynamics of time and the liturgical year the inculturation of liturgy and underlying elements of dualism and patriarchal power paradigms which linger beneath the often commercial and sentimental character of Christmas today Suzan K Roll was born in Clarence Center New York USA in 1952 She holds degrees in classical languages and pastoral theology and in 1993 received a Ph D from the Faculty of Theology of the Catholic University of Louvain Leuven Belgium summa cum laude with the gratulations of the jury She has taught and published in the field of liturgy sacraments pastoral theology and presently teaches at Christ the King Seminary Buffalo New York USA
