Revolution Aaron W. Marrs,2024-04-09 A history of steamboats and railroads in the United States prior to the Civil War In the first half of the nineteenth century transportation in the United States underwent an extraordinary transformation Steamboats and railroads turned long distance travel from an arduous undertaking into a regularized commodity travel became something that people could purchase Historians have long understood the economic and political ramifications of improved travel but the social and cultural dimensions of early steam transit are less studied In The American Transportation Revolution Aaron W Marrs explores the cultural influence of steamboats and railroads which fascinated Americans across the country Demonstrating the wide cultural reach of steam transit Marrs draws from an eclectic set of sources including children's books comic almanacs musical works sermons etiquette guides cartoons and employee rulebooks This rich tapestry of cultural production helped naturalize steam technology for Americans before they ever encountered steam transit in person Before ever seeing a railroad Americans could read a novel that took place on a railroad see an image of a train on currency or purchase piano music imitating a train These cultural artifacts made these new forms of transport feel familiar and natural Marrs examines how cultural norms about travel emerged through the prescriptions of etiquette authors and the

actions of travelers themselves how enslaved people made innovative use of transportation networks to escape from slavery and much more Marrs convincingly demonstrates steam transportation's broad cultural impact on the United States and how Americans in turn imprinted their own meaning on this new technology *The Official Railway Guide*, 1878 **Nineteenth**

Reese, 2002 Founded in 1871 by a group of entrepreneurs from Cleveland Akron and Canton the Valley Railway paralleled the Cuyahoga River Valley stretching from southeast Cleveland to Akron and then on to Canton and Valley Junction in Tuscarawas County The Railway filled a need in the region by providing an important passenger rail link among the three cities and provided direct access to the coal fields in Stark and Tuscarawas Counties supplying coal for Cleveland's iron mills and other growing industries The Railway began operation in 1880

continued service until 1962 and was revived in the early 1970s Construction of the Valley Railway coincided with a growing interest in travel and tourism in the United States It was in the spirit of tourism and boosterism that John Reese wrote his Guide which is the only primary source account of the landscape and communities of the region in 1880 Reese discusses both the built environment bridges viaducts trestles and roadbeds and natural features in plain view from the train and illustrates

it all with thirty period engravings In addition the Guide is filled with advertisements for all sorts of tradesmen merchants and businesses t Bibliotheca Americana, 1893 Clarke, firm, booksellers, Cincinnati,1893 **The American Catalogue of Books, Or English Guide to American Literature, Giving the Full Titles of Original Works Published in the United States Since the Year 1800, with Especial Reference to Works of Interest to Great Britain.
