**The Changing Dynamics of Energy in the Middle East** Khalid Al-Rodhan, Anthony H. Cordesman, 2006-10-30 The recent rise in global demand for energy and the resulting spike in energy prices have illustrated just how important Middle Eastern energy exports are This book the first on the subject since the hike in energy prices impacted the global energy market outlines the current facts that shape the ability of Middle Eastern producers to supply energy exports It explores the possible future causes both of major interruptions in supply and of failures to maintain and expand export capacity and though it does not predict a major energy crisis it does describe a range of factors that could produce one The recent rise in global demand for energy and the resulting spike in energy prices have illustrated just how important Middle Eastern energy exports are This book the first on the subject since the hike in energy prices impacted the global energy market outlines current facts that shape the ability of Middle Eastern producers to supply energy exports It explores the possible future causes both of major interruptions in supply and failures to maintain and expand export capacity and though it does not predict a major energy crisis it does describe factors that could produce one Authors Cordesman and Al Rodhan analyze the plans of each country in the region compare those plans with the forecasting models of international organizations and study each country s prospects for stability They also analyze how importing countries such as the United States Europe China and India are dealing with the changing nature of global dependence upon MENA oil Offering the most comprehensive data on current energy resources production capacities estimates import dependence and national plans and strategies The Changing Dynamics of Energy in the Middle East analyzes current energy modeling and shows how the lack of supply driven models has had a negative impact on the understanding of policy makers and strategic thinkers The book concludes its analysis with possible strategic economic and demographic scenarios for the Middle East projecting the impact of each scenario on future energy developments

**Middle East Oil and Gas** International Energy Agency, 1995 *Oil States in the New Middle East* Kjetil Selvik, Bjørn Olav Utvik, 2015-07-16 Oil has been central to regime survival for oil states across the Arabian Peninsula and has been at the heart of their attempts to defuse the wave of Arab revolutions However in 2011 revolution hit Libya the most oil dependent regime in the Middle East The political storm winds that have swept this region have thrown into doubt the resilience of Arab rentier states and highlight how the political effects of oil vary across the oil producing countries Oil States in the New Middle East brings together leading experts to critically assess the centrality of oil and the relevance of Rentier State Theory in light of the post 2011 upheaval across the Middle East and North Africa It combines overall reflections on the political dynamics in oil states with focused case investigations of individual countries Taking as its starting point the centrality of oil in explanations of regime survival the book analyses how

the oil states have responded to and fared throughout the Arab popular upheavals resulting in a critical assessment of the continued relevance of Rentier State Theory While observers have asked how the uprisings varied between oil and non oil states this book turns the comparative focus inward arguing for a more fine grained understanding of the political effects of oil in different oil producing countries This book would be of interest to students and scholars of Middle East North Africa and Gulf Studies Oil and Politics as well as Comparative Politics and International Political Economy *The Middle East and North Africa in a Changing Oil Market* Mr.Bright E Okogu,2003-09-05 The world oil market has undergone a series of changes that have reduced the share of oil in the global energy balance and with it the influence of Middle Eastern oil exporters In spite of oil s loss of ground however Middle Eastern countries remain at the center of world oil developments This paper focuses on the developments in the international oil market the role of Middle Eastern countries therein and the policy challenges arising from the dependency on oil **Some Dimensions of Middle East Oil** Ragaei El Mallakh,1970
