HISTORY OF THE OLYMPIC GAMES Ruben Ygua, 2025-04-08 Traditional methods of studying the past have always given greater importance to nationalist religious and

moral interests which subordinated the historical fact to the System point of view The time has come to simplify and show respect for our ancestors striving to know what really happened in the past and not just what they want to inform us about After so many years of studying History I came to the conclusion that the best study system is through an impartial objective Chronology that just put each event in its exact place in time revealing History without manipulation This Chronology contains not only purely political facts such as the foundation of cities the birth of kingdoms and empires scientific and geographical discoveries natural disasters and epidemics it also includes information on the most different fields of human activity chemistry astronomy geography mathematics and so on In parallel the chronology is complemented by data that do not belong to a specific date but to an entire epoch they are each society generalities curiosities customs the religion of each civilization inventions or discoveries that cannot be placed in an exact date etc The result of all this set is one of the most complete chronologies within its reach periodically updated with the latest archaeological and scientific discoveries and that transforms the reader into an eyewitness of the past understanding the relation of geographically distant facts to each other but closely connected in time and influencing unexpected consequences This is something that traditional history has generally ignored when it was not usable A work of this magnitude could not be published in a single book so I have divided it into several collections and the Spanish originals are being translated into French English Italian and Portuguese The chronology goes from prehistory to the present day year by year as far as possible For those who prefer a deeper and more detailed study I have prepared a second chronology day by day this for now covers from 1789 to 1946 divided into five collections

A Political History Of The Olympic Games David B Kanin,2019-08-19 The turmoil surrounding the 1980 Olympic Games says the author was nothing new it was merely the most recent and most complex manifestation of the political content of modern sport Despite the mythology perpetrated by Olympic publicists the modern Olympic Games were founded with expressly political goals in mind and continue to thrive on tie

The Olympic Games, Stockholm, 1912 (Classic Reprint) James Edward Sullivan, 2018-04-21 Excerpt from *The Olympic Games Stockholm 1912* While almost every track event is worthy of a descriptive chapter in itself there are two which stand out in bold relief and these are the 400 and 800 meters the latter being the greater as it was the means of contributing a new world's record for the half mile An extra string had been put at the 880 yard mark and though the winner hesitated slightly after hitting the finish of the 800 meters he reached the half mile in 1 minute 52 1/2 seconds There in the broad light of day at a great occasion among the choicest of the world's competitors and before the world's keenest experts all previous marks for the 800 meters and half mile were blotted out and the new ones substituted were of a caliber simply bordering on the marvelous The young man to perform the feat was an American and it is still more satisfactory to remember that the second and third were also Americans and that they beat the previous record
