**The Other Gospels** Ron Cameron,1982-01-01 This new anthology of gospel literature contains texts that are not part of the New Testament but are of great importance for the study of Christian origins Some of these apocryphal gospels are from the Nag Hammadi library made available only recently The sixteen texts constitue what remains of the non canonical gospels form the first and second centuries They transmit saying of Jesus and relate stories about Jesus

*'Noncanonical' Religious Texts in Early Judaism and Early Christianity* Lee Martin McDonald,James H. Charlesworth,2012-04-05 Discusses ancient religious texts especially the so called non canonical texts by focusing on how they were used or functioned in Early Judaism and Early Christianity

Theology of the New Testament Frank S. Thielman,2011-03-22 Studying the theology of the New Testament can be a daunting task even to the knowledgeable Bible student or pastor Each of the twenty seven books written by various authors has its own theological emphasis and nuances How do we elicit a coherent message from such theological diversity especially given that some of the theological statements in the New Testament seem to be at odds with one another Is such an endeavor achievable or even valid Theology of the New Testament takes a balanced approach in response to these challenges Frank Thielman presents a theology of the New Testament that is careful to take into account the cultural and historical circumstances surrounding each book and the New Testament as a whole He not only examines each book's theological content individually but also in relation to the rest of the New Testament particularly within each of the three theological units that comprise the New Testament the gospels and Acts the Pauline epistles and the general epistles and Revelation This canonical and synthetic approach honors both the theological diversity of the various books and the theological connections between the books In the end Thielman finds a unified theological vision of the New Testament anchored in the centrality of Jesus Christ Frank Thielman's Theology of the New Testament is an outstanding achievement The book is marked by scholarly depth exegetical rigor and theological profundity Both students and professors will profit immensely from this lucid treatment of the theology contained in the New Testament documents Thomas R Schreiner Professor of New Testament The Southern Baptist Theological Seminary An accessible presentation of the key theological points of the New Testament books by an accomplished New Testament scholar and teacher Its clear style lucid organization and sound theological insight make it a prime resource for serious students in both the academy and the church Karen H Jobes PhD Associate Professor of New Testament Westmont College

The UnGospel Stephen S. Carver,2010-03-30 Jesus proclaimed an empowering message about the Kingdom of God in order to encourage the common people of his day to care for one another as a demonstration of their love for God Yet Christians eventually proclaimed a formulaic message about Jesus Christ in order to convince people Jesus was the only way of salvation How did this change occur The UnGospel presents a reconstruction of the life and teachings of the historical Jesus and then contrasts the basic message of Jesus with the layers of interpretation added to Jesus message by the early Christian church

Robinson, Jozef Verheyden, 2005 This volume brings the revised version of the full collection of 38 essays covering James Robinson's studies on Q from his 1964 breakthrough article on the genre of Q to the corpus of hotly debated contributions on Q 12-27 which he published between 1998 and 2002 and his detailed presentation of the Critical Edition of Q 2002 Edited by C Heil and J Verheyden    Neither Jew nor Greek James D. G. Dunn, 2015 In Christianity in the making James D G Dunn examines in depth the major factors that shaped first generation Christianity and beyond exploring the parting of the ways between Christianity and Judaism the Hellenization of Christianity and responses to Gnosticism He mines all the first and second century sources including the New Testament Gospels New Testament apocrypha and such church fathers as Ignatius Justin Martyr and Irenaeus showing how the Jesus tradition and the figures of James Paul Peter and John were still esteemed influences but were also the subject of intense controversy as the early church wrestled with its evolving identity

Walsh, 2005-11-08 Uses film and literature to engage the biblical texts and demonstrates the ways that the boundaries of canons are artificial and unhelpful    **The New Testament** Bart D. Ehrman, 2000 This new edition of Bart Ehrman's highly successful introduction approaches the New Testament from a consistently historical and comparative perspective emphasizing the rich diversity of the earliest Christian literature Rather than shying away from the critical problems presented by these books Ehrman addresses the historical and literary challenges they pose and shows why scholars continue to argue over such significant issues as how the books of the New Testament came into being what they mean how they relate to contemporary Christian and non Christian literature and how they came to be collected into a canon of Scripture Distinctive to this study is its emphasis on the historical literary and religious milieu of the Greco Roman world including early Judaism As part of its historical orientation this text also discusses works by other Christian writers who were roughly contemporary with the New Testament such as the Gospel of Thomas the Apocalypse of Peter and the letters of Ignatius This second edition features expanded coverage of the historical Jesus adds new boxes on various topics e g women in the New Testament and alternative approaches to the historical Jesus incorporates a twelve page color photo essay on illuminated manuscripts and includes several important organizational changes Ideal for undergraduate and seminary classes in the New Testament Biblical Studies and Christian Origins The New Testament A Historical Introduction to the Early Christian Writings Second Edition is an accessible clearly written introduction that encourages students to consider the historical issues surrounding these writings    **Encyclopaedia Britannica** , 1899

life story The Jesus who emerges is a savvy and courageous Jewish Mediterranean peasant a radical social revolutionary with a rhapsodic vision of economic political and religious egalitarianism and a social program for creating it The conventional wisdom of critical historical scholarship has long held that too little is known about the historical Jesus to say definitively much more than that he lived and had a tremendous impact on his followers There were always historians who said it could not be done because of historical problems writes Crossan There were always theologians who said it should not be done because of theological objections And there were always scholars who said the former when they meant the latter With this ground breaking work John Dominic Crossan emphatically sweeps these notions aside He demonstrates that Jesus is actually one of the best documented figures in ancient history the challenge is the complexity of the sources The vivid portrayal of Jesus that emerges from Crossan's unique methodology combines the complementary disciplines of social anthropology Greco Roman history and the literary analysis of specific pronouncements anecdotes confessions and interpretations involving Jesus All three levels cooperate equally and fully in an effective synthesis that provides the most definitive presentation of the historical Jesus yet attained *Semeia : an Experimental Journal for Biblical Studies* ,1995 An experimental journal for Biblical criticism **The Encyclopaedia Britannica** Thomas Spencer Baynes,1879 **Mark** Robert Walter Funk,1990 New Gospel Parallels Robert Walter Funk,1985
