# The Of Proper Names

**Prophets (Minor)**

## **The Of Proper Names:**

**The Cognitive Psychology of Proper Names** Serge Bredart, Tim Brennen, Tim Valentine, 2002-01-04 It's on the tip of my tongue but I can't remember her name. Lots of people have difficulty remembering people's names even though they can easily recall other information about the person. As memory and retrieval processes are central to cognitive psychology and neuropsychology, the study of proper names makes a fascinating and practical focus of study. Using an information processing approach, Valentine, Brennen, and Bredart consider evidence from speech production, face recognition, and word recognition to develop a new functional model of the production and recognition of people's names. This book will be valuable to all those studying cognitive psychology, cognitive neuropsychology, and linguistics. It makes a suitable text for higher level undergraduates and postgraduates and those engaged in research.

**The Theory of Proper Names** Alan Henderson Gardiner, 1954

**Theory and Typology of Proper Names** Willy van Langendonck, 2007 This book proposes a new synthesis of the functions of proper names from a semantic, pragmatic, and syntactic perspective. Proper names are approached constructionally, distinguishing prototypical uses from more marked ones such as those in which names are used as common nouns. Since what is traditionally regarded as the class of names turns out to be only one possible function of name forms, though a prototypical one, the notion of proprial lemma is introduced as the concept behind both proprial and appellative uses of such categories as place names and personal names. New formal arguments are adduced to distinguish proper name function from common noun or pronoun function. The special status of proper names is captured in a unified pragmatic semantic syntactic theory: a proper name denotes a unique entity at the level of langue to make it psychosocially salient within a given basic level category. The meaning of the name, if any, does not determine its denotation. An important formal reflection of this characterization of names is their ability to appear in such close appositional constructions as the poet Burns or Fido the dog. The neurolinguistic finding that proper names constitute a separate category is introduced and interpreted within a general linguistic frame of reference. The different kinds of meanings associated with names—categorical, associative, emotive, and grammatical—are shown to be presuppositional in nature. In addition, the book proposes an entirely new classification of proper names as forming a continuum ranging from prototypical personal and place names to nonprototypical categories: brand and language names to citations and autonyms, and a new diachronic classification of family names and nicknames. This book fills an important gap in the current literature because the most recent linguistic book in English on name theory dates back to 1973. It is explicitly interdisciplinary, taking into account linguistic, philosophical, neurolinguistic, sociolinguistic, and dialect geographical aspects of proper names.

**How Do Proper Names Really Work?** Claudio Ferreira-Costa, 2023-09-18 For fifty years the philosophy of language has been experiencing a stalemating conflict between the old descriptive and internalist orthodoxy advocated by philosophers such as Frege, Russell, Wittgenstein, Strawson, and Searle, and the new causal referential and externalist orthodoxy mainly endorsed by Kripke, Putnam, and Kaplan.

Although the latter is dominant among specialists the former retains a discomfiting intuitive plausibility The ultimate goal of this book is to overcome the stalemate by means of a non naive return to the old descriptivist internalist orthodoxy

Concerning proper names this means introducing second order description rules capable of systemizing descriptions of the proper names cluster to provide us with the right changeable conditions of satisfaction for its application Such rules can explain how a proper name can become a rigid designator while remaining descriptive disarming Kripke's and Donnellan's main objections In the last chapter this new perspective is extended to indexicals in a discussion of David Kaplan's and John Perry's views and of general terms in a discussion of Hilary Putnam's externalism

**Vulgar Errors, Ancient and Modern, Attributed as Imports to the Proper Names of the Globe ... Investigating the Origin and Uses of Letters ...** Gilbert Dyer, 1816 **A Concordance of the Proper Names in the Holy Scriptures** Thomas David Williams, 1923 *Federal Register*, 1980-10-29

*Theory and Typology of Proper Names* Willy Van Langendonck, 2008-08-22 This book proposes a new synthesis of the functions of proper names from a semantic pragmatic and syntactic perspective Proper names are approached constructionally distinguishing prototypical uses from more marked ones such as those in which names are used as common nouns Since what is traditionally regarded as the class of names turns out to be only one possible function of name forms though a prototypical one the notion of proprial lemma is introduced as the concept behind both proprial and appellative uses of such categories as place names and personal names New formal arguments are adduced to distinguish proper name function from common noun or pronoun function The special status of proper names is captured in a unified pragmatic semantic syntactic theory a proper name denotes a unique entity at the level of langue to make it psychosocially salient within a given basic level category The meaning of the name if any does not determine its denotation An important formal reflection of this characterization of names is their ability to appear in such close appositional constructions as the poet Burns or Fido the dog The neurolinguistic finding that proper names constitute a separate category is introduced and interpreted within a general linguistic frame of reference The different kinds of meanings associated with names categorical associative emotive and grammatical are shown to be presuppositional in nature In addition the book proposes an entirely new classification of proper names as forming a continuum ranging from prototypical personal and place names to nonprototypical categories brand and language names to citations and autonyms and a new diachronic classification of family names and nicknames This book fills an important gap in the current literature because the most recent linguistic book in English on name theory dates back to 1973 It is explicitly interdisciplinary taking into account linguistic philosophical neurolinguistic sociolinguistic and dialect geographical aspects of proper names *American Journal of Philology* Basil Lanneau Gildersleeve, Charles William Emil Miller, Benjamin Dean Meritt, Tenney Frank, Harold Fredrik Cherniss, Henry Thompson Rowell, 1883 Each number includes Reviews and book notices **The System of Mineralogy of James Dwight Dana, 1837-1868** James Dwight Dana, Edward Salisbury Dana, 1892 *A Practical English Grammar* Albert Newton

## The Of Proper Names Introduction

In the digital age, access to information has become easier than ever before. The ability to download The Of Proper Names has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download The Of Proper Names has opened up a world of possibilities. Downloading The Of Proper Names provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading The Of Proper Names has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download The Of Proper Names. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading The Of Proper Names. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading The Of Proper Names, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download The Of Proper Names has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students,

researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

### FAQs About The Of Proper Names Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. The Of Proper Names is one of the best book in our library for free trial. We provide copy of The Of Proper Names in digital format, so the resources that you find are reliable. There are also many Ebooks of related with The Of Proper Names. Where to download The Of Proper Names online for free? Are you looking for The Of Proper Names PDF? This is definitely going to save you time and cash in something you should think about.
