**AIDS Service Demonstration Programs** ,1991      **Policy Studies: Review Annual** Bruce B. Zellner,2019-01-22

Every editor of the Policy Studies Review Annual brings a unique perspective to bear in selecting articles to be included This perspective reflects varying methodological and disciplinary judgments varying judgments on what the field of policy studies or policy analysis is and where it should be going and varying judgments regarding the quality of articles which are or claim to be in the field Because it is the objective to assemble a set of essays which are both interesting and topical there will be varying perspectives on these matters as well The volume clearly reflects the editors perspectives They are explicit about these judgments and perspectives and then let the content of the volume speak for itself First we are both economists As a result the general topics selected and the articles chosen under each topic tend to emphasize economics more than the other disciplines involved in the field of policy studies sociology psychology political science law and so on This emphasis is clearly seen by comparing the contents of volume I edited by Stuart Nagel a political scientist and volume II edited by Howard Freeman a sociologist with that of this volume Second the editors have a particular view of what policy studies or policy analysis is That view has several aspects In the first place they feel that the field of policy studies or policy analysis must define itself and this definition will develop as researchers do just what the title of the field says study or analyze policies A corollary of this view is that we place a low weight on papers which discuss the policy process or reforms in policy making relative to papers which analyze a policy a policy proposal or a problem which leads to calls for policy action      A Research Agenda for Event Impacts Torre, André,Gallaud, Delphine,2022-01-11 Exploring the social economic and environmental impacts of events on people places and communities this timely Research Agenda highlights the links between theory and practice in event impacts research Top scholars critically assess events looking at who benefits from hosting them and focusing on issues surrounding sustainability the need to define legacies and the need to extend regeneration efforts to secure economic and socially sustainable futures      Annual Report of the Public Service Commission New York (State).
