The Original Feminist Attack On The Bible:

The Woman's Bible Elizabeth Cady Stanton, 1848 Struggling for women's rights in the nineteenth century the early feminists were constantly told that the Bible ordains woman's sphere as helper to man and woman's status as inferior to man Having heard this throughout her decades of labor in the women's rights movement Elizabeth Cady Stanton determined in 1848 to investigate the Bible and what it really says about women She attempted to obtain the assistance of a number of female scholars of Hebrew and Greek but several turned her down fearing that their reputations would be compromised She finally chose a committee of women she believed would make a valuable contribution primarily based on her perception of their liberal ideas and ability to make sense out of what they read This was the Revising Committee that shared billing with Stanton for the work Stanton herself however wrote most of the commentary and it contains her own beliefs and values

The Original Feminist Attack on the Bible Elizabeth Cady Stanton, 1848 [A Feminist Companion to Reading the Bible](#) Athalya Brenner, Carole Fontaine, 2013-08-16 This valuable resource both presents and demonstrates the numerous developments in feminist criticism of the Bible and the enormous range of influence that feminist criticism has come to have in biblical studies The purpose of the book is to raise issues of method that are largely glossed over or merely implied in most non feminist works on the Bible The editors have included broadly theoretical essays on feminist methods and the various roles they may play in research and pedagogy as well as non feminist essays that have direct bearing on the methods or subject matter that feminists use as well as reading that illustrate the variety of methodological strategies adopted by feminist scholars Some 30 scholars from North America and Europe have contributed to this Companion **Recovering Nineteenth-Century Women Interpreters of the Bible** Christiana de Groot, Marion Ann Taylor, 2018-04-25 Women have been thoughtful readers and interpreters of scripture throughout the ages yet the usual history of biblical interpretation includes few women's voices To introduce readers to this untapped source for the history of biblical interpretation this volume presents forgotten works from the nineteenth century written by women including Grace Aguilar Florence Nightingale and Harriet Beecher Stowe among others from various faith backgrounds countries and social classes engaging contemporary biblical scholarship Due to their exclusion from the academy women's interpretive writings addressed primarily a nonscholarly audience and were written in a variety of genres novels and poetry catechisms manuals for Bible study and commentaries on the books of the Bible To recover these nineteenth century women interpreters of the Bible each essay in this volume locates a female author in her historical ecclesiastical and interpretive context focusing on particular biblical passages to clarify an author's contributions as well as to explore how her reading of the text was shaped by her experience as a woman [Towards a Feminist Critical Reading of the Gospel according to Matthew](#) Elaine M. movements in American Christianity such as Evangelicalism Pentecostalism and the Holiness movement Donald W Dayton has produced a body of work spanning four decades and diverse areas of inquiry In *From the Margins* friends and colleagues respond to major essays by Dayton several published here for the first time so as to celebrate and reflect on this diverse and rich body of work The essays highlight the breadth of Dayton s contribution while also revealing a methodological core The latter could be described as Dayton s deconstructive reading of standard scholarly narratives in order to short circuit their domesticating effects on the more radical aspects of American Christianity Dayton s work has challenged long held assumptions about the conservative nature of American Christianity by showing that both in their history and in their deeper theological substructures traditions such as Evangelicalism and Pentecostalism are far more radical and productive of social change than was previously imagined

Rhetoric and Ethic Elisabeth Schüssler Fiorenza, In this major study leading feminist biblical critic Elisabeth Schussler Fiorenza focuses on Paul and his interpreters She questions the apolitical ethos of biblical scholarship and argues for an alternative rooted in a critical understanding of language as a form of power Modern biblical criticism she reasons derives much of its methodology and inspiration from an outdated notion of modern science It professes value neutrality and detachment from the world of politics and history Yet Schussler Fiorenza maintains this posture belies an objectivity that fails to engage the sociopolitical context of both the text and today s reader It also does not recognize the rhetorical character of biblical texts and readings If language is understood in the sense of ancient rhetorics as a form of power that constitutes reality then an ethics of interpretation is called for The task of biblical studies is to identify and assess the ethical resources and moral visions of biblical religions Only then Schussler Fiorenza contends will biblical studies be a significant partner in the global struggles seeking justice and well being for all
