The Other Hundred Years War Japans Bid For Supremacy 1941 2041:

Japanese Capitalism Since 1945 Tessa Morris-Suzuki, Seiyama Takuro, 2016-07-22 This book introduces students of the Japanese economy to a broad range of critical contemporary Marxian analyses by Japanese economists Each of the five essays on economic policy agriculture big business labour relations and foreign trade and investment is written by a specialist in the field The introduction places the essays in the wider context of contrasting theories of Japanese economic development While such writings constitute an important part of the economic literature in Japan virtually none of the great body of Marxian writing on Japanese capitalism has heretofore been available in English **The Other Hundred Years**

War Russell Braddon, 1983 *Routledge Library Editions: Business and Economics in Asia* Various, 2021-07-14 This set examines a vast range of topics covering all experiences of business and economics from across Asia Dealing with early banking systems in China the industrialisation of Korea and Taiwan the evolution of Japanese business practices economic development protectionist policies industrial investment trade tourism and a host of other topics the books collected here form a vital reference resource across a wide subject area **Japan's Economic Challenge** Michael Keresztesi, Gary R.

Cocozzoli, 2018-10-26 This book first published in 1988 assembles a key pool of references in English to help study the Japanese economic challenge of the 1980s Collectively these writings chronicle the historical social and cultural background of Japan s spectacular industrial take off They describe analyse and interpret the diverse manifestations of Japan s economic growth **Japan - Restless Competitor** Dr Malcolm Trevor, Malcolm Trevor, 2013-12-16 In this important new and

controversial study about the nature and focus of the Japanese economic agenda the author argues forcefully that the official mind set of leading bureaucrats top politicians and big business makes it virtually impossible for the western industrialized world to do business on an equal footing Put simply it is a question of western free market economics facing Japanese economic nationalism which is by its very nature both an expansive and a protectionist ideology International observers continue to ask is Japan changing or more forcefully is Japan capable of change Notions of reform and restructuring are today part of the Japanese lexicon but appear to hold little substance Trevor argues that any western notion of Japan changing fundamentally i e adopting western or Anglo Saxon philosophies is facile completely unrealistic This book is for everyone who wonders what motivates Japan s politico economic system and whether it is changing **Japan** Malcolm Trevor, 2001 This controversial study examines Japan s economic nationalism which forms the basis of central government policy i e the system in which business and politics are inseparable and which impacts on Japan s relations with the world
