Julius Ludwig Weisbach

The Of Revolutions:

A Concise History of Revolution Mehran Kamrava, 2020 From rebellion to revolution Social movements and revolution
Revolutionary states Revolutionary politics **Tides of Revolution** Cristina Soriano, 2018-12 Winner of the 2019 Bolton
Johnson Prize from the Conference on Latin American History This is a book about the links between politics and literacy and
about how radical ideas spread in a world without printing presses In the late eighteenth and early nineteenth centuries
Spanish colonial governments tried to keep revolution out of their provinces But as Cristina Soriano shows hand copied
samizdat materials from the Caribbean flooded the cities and ports of Venezuela hundreds of foreigners shared news of the
French and Haitian revolutions with locals and Venezuelans of diverse social backgrounds met to read hard to come by texts
and to discuss the ideas they expounded These networks efficiently spread antimonarchical propaganda and abolitionist and
egalitarian ideas allowing Venezuelans to participate in an incipient yet vibrant public sphere and to contemplate new
political scenarios This book offers an in depth analysis of one of the crucial processes that allowed Venezuela to become one
of the first regions in Spanish America to declare independence from Iberia and turn into an influential force for South
American independence *Indian and Slave Royalists in the Age of Revolution* Marcela Echeverri, 2016-04-25 Marcela
Echeverri draws a picture of the royalist region of Popayán in modern day Colombia that reveals deep chronological layers and
multiple social and spatial textures She uses royalism as a lens to rethink the temporal spatial and conceptual boundaries
that conventionally structure historical narratives about the Age of Revolution *Political Thought in the Age of Revolution
1776-1848* Michael Levin, 2010-12-09 The years between the American Revolution of 1776 the French Revolution of 1789 and
the European Revolutions of 1848 saw fundamental shifts from autocracy to emerging democracy It is a vital period in what
may be termed modernity that is of the western societies that are increasingly industrial capitalist and liberal democratic
Unsurprisingly these years of stress and transition produced some significant reflections on politics and society This
indispensable introductory text considers how a cluster of key thinkers viewed the global political upheavals and social
changes of their time covering the work of Edmund Burke Georg Hegel Thomas Paine Alexis de Tocqueville Jeremy Bentham
Karl Marx and Friedrich Engels Lively and approachable it is essential reading for anyone with an interest in modern history
political history or political thought *Mechanics' and Engineers' Pocketbook of Tables* Charles Haynes Haswell, 1890
