work **The Multicultural Imagination** Michael Vannoy Adams,2019-07-16 The Multicultural Imagination is a challenging inquiry into the complex interrelationship between our ideas about race and color and the unconscious Michael Vannoy Adams takes a fresh look at the contributions of psychoanalysis to a question which affects every individual who tries to establish an effective personal identity in the context of their received racial identity Adams argues that race is just as important as sex or any other content of the unconscious drawing on clinical case material from contemporary patients for whom race or color is a vitally significant social and political concern that impacts on them personally He does not assume that racism or colorism will simply vanish if we psychoanalyse them but shows how a non defensive ego and a self image that is receptive to other images can move us towards a more productive discourse of cultural differences Wide ranging in its references and scope this is a book that provokes the reader analyst or not to confront personally those unconscious attitudes which stand in the way of authentic multicultural relationships *Managing Previously Unmanaged Collections* Angela Kipp,2024-11-19 This book is a practical guide for everyone who is confronted with a collection that hasn't seen any preventive conservation or cataloging before It helps gaining an overview defining priorities and organizing the work in a way it is safe for the objects and the people involved It defines logical exits goals to work towards where the collection is in a state the next steps can wait without risking the progress made Later on readers learn to define their own logical exits that fit their specific situation Compared to other books about collections management it doesn't focus on the details of collections care but rather on the big picture of managing such a project It assumes that at the beginning there is nothing but the reader and an unmanaged collection so that part of the project is to source money material and people to help The second edition has a new chapter on setting up collections management systems the original text was reworked and in parts enhanced there are additional success stories in the last chapter with references to them in the text and the bibliography now contains some resources for natural history indigenous and archaeological collections [Racialised Gang Rape and the Reinforcement of Dominant Order](#) Kiran Kaur Grewal,2016-12-08 This path breaking book provides a comparative analysis of public discourses in France and Australia on a series of highly mediatised racialised gang rapes that occurred during the early to mid 2000s These rapes led to intense public debate in both countries regarding an apparent gang rape phenomenon associated with young men of Muslim background By comparing the responses to similar instances of sexual violence in two very different Western liberal democracies this book explores the relationship between constructions of national gender and ethnic identity in modern developed nations of the West The impact of immigration and cultural diversity on communities has become an issue of central concern to Western liberal democracies in recent years With greater movements of people than ever before and large temporary migrant populations who have not gone home the discourse of a crisis of national identity is a feature of many democracies in the West At the same time in a supposedly post feminist age the focus of debates around women's rights in these democracies has increasingly been the extent to which the cultural values of immigrant and ethnic

minority populations are compatible with the espoused gender equality of the West Through an analysis of these rapes Kiran Kaur Grewal identifies certain commonalities as well as interesting points of divergence within the two nations public discourses In doing so she identifies the limitations of current debates and proposes alternative ways of understanding the tensions at play when trying to respond to acts of extreme sexism and violence committed by members of ethnic minority communities *Lectures on the Psychology of Women* Joan C. Chrisler,Carla Golden,Patricia Denise Rozee,2000 This collection of informal essays addresses commonly asked questions on the psychology of women The authors experts in the field describe personal experience and discuss the aims of feminist psychology and how the book fits into that framework The essays are designed for undergraduates **Sociology** Melvin Lawrence DeFleur,William V.
