Walker, 2021-03-22 In this book senior scholars and a new generation of analysts present different applications of recent advances linking beliefs and decision making in the area of foreign policy analysis with strategic interactions in world politics Divided into five parts Part 1 identifies how the beliefs in the cognitive operational codes of individual leaders explain the political decisions of states In Part 2 five chapters illustrate progress in comparing the operational codes of individual leaders including Vladimir Putin of Russia three US presidents Bolivian president Evo Morales Sri Lanka's President Chandrika Kumaratunga and various leaders of terrorist organizations operating in the Middle East and North Africa Part 3 introduces a new Psychological Characteristics of Leaders PsyCL data set containing the operational codes of US presidents from the early 1800s to the present In Part 4 the focus is on strategic interactions among dyads and evolutionary patterns among states in different regional and world systems Part 5 revisits whether the contents of the preceding chapters support the claims about the links between beliefs and foreign policy roles in world politics Richly illustrated and with comprehensive analysis *Operational Code Analysis and Foreign Policy Roles* will be of interest to specialists in foreign policy analysis international relations theorists graduate students and national security analysts in the policy making and intelligence communities **Chinese Strategic Culture and Foreign Policy Decision-Making** Huiyun Feng, 2007-06-11 Examining the major academic and policy debates over China's rise and related policy issues this book looks into the motivations and intentions of a rising China Most of the scholarly works on China's rise approach the question at a structural level by looking at the international system and the systemic impact on China's foreign policy Traditional Realist theorists define China as a revisionist power eager to address wrongs done to them in history whilst some cultural and historical analyses attest that China's strategic culture has been offensive despite its weak material capability Huiyun Feng's path breaking contribution to the debate tests these rival hypotheses by examining systematically the beliefs of contemporary Chinese leaders and their strategic interactions with other states since 1949 when the communist regime came to power The focus is on tracing the historical roots of Chinese strategic culture and its links to the decision making of six key Chinese leaders via their belief systems *Chinese Strategic Culture* will be of interest to students of Chinese politics foreign policy strategic theory and international relations in general *The Operational Code of the Politburo* Nathan Leites, 1951 *Psychology and Historical Interpretation* William McKinley Runyan, 1988 What kind of psychology should be used in historical interpretation How should it be used and on what range of historical problems These are some of the basic questions addressed by the distinguished contributors *Foreign Policy Analysis* Klaus Brummer, Kai Oppermann, 2024 *Foreign Policy Analysis* is the most systematic thorough guide to core foreign

policy approaches drawing insights from international relations and non Western perspectives to provide students with a full understanding of theory Brummer and Opperman put theoretical approaches front and centre without neglecting the right connection with international relations theories This book challenges Western centric perspectives on foreign policy analysis and reflects the rise of non Western scholarship in the field This edition is available for students and institutions to purchase in a variety of formats The e book offers a mobile experience and convenient access along with functionality tools navigation features and links that offer extra learning support www.oxfordtextbooks.co.uk/ebooks Congressional Record United States. Congress,1951 Bernard Brodie and the Foundations of American Nuclear Strategy Barry Howard Steiner,1991 Steiner analyzes how and why Brodie's understanding of weapons of unparalleled explosive force led him to posit the need for revolutionary strategic thinking in broadminded analytic method and in the focus upon cities as nuclear targets He shows the tremendous effect Brodie's work had on the intellectual climate in which policy is determined particularly in his frequent combatting of conventional wisdom *Leaders in the Middle East and North Africa* Özgür Özdamar,Sercan Canbolat,2023-08-17 Analyses the psychology of fourteen modern leaders across the political spectrum to reconsider politics in the MENA region *U.S. Government Research & Development Reports* ,1967 **Widener Library Shelflist: Russian history since 1917** Harvard University. Library,1966 **Discussion Paper Series** Kennedy School of Government. Public Policy Program,1973 *American Foreign Policy* G. John Ikenberry,2002 Featuring 28 thought provoking essays collected from scholarly journals this highly respected reader provides an overview of the major contending theories that shape U S foreign policy Edited by one of the foremost names in the field this respected volume contains selections written by leading scholars in U S foreign policy and international relations The essays provide representative statements of the major contending explanations of American foreign policy and encourage readers to evaluate the issues that shape our foreign policy today **Impact of the Russo-Japanese War on the Northeast Asian Regional Subsystem** Söng-hak Kang,1985 **Passion, Politics, and the Past** Vladimir Donskoi,2008 This book shows that foreign policy decision making is not as cool minded as it is deemed to be It analyses how the lessons of history influence decision making and argues that during crises a decision maker's affect anger and fear can bias him towards straightforward responses of the fight or flight type This insight also prompts a fresh answer to the question what analogies are likely to be picked from the vast pool of historical events a behaviourally straightforward analogies with forceful imagery and clear cut affective connotations b analogies that are already established in the political discourse c exceedingly grave analogies d many different analogies with congruent inferences Thus politicians tend to draw analogies that are affectively salient e g between Saddam Hussein and Hitler rather than factually accurate and this explains why such analogies are often farfetched The case on which the model is then tested is the U S decision making during 1st week of the Korean War This book will be especially interesting for scholars and practitioners in the field of politics as well as for everyone who wants to understand how emotions influence decisions

Foreign Policy Motivation Richard W. Cottam, 1977 Foreign policy motivation is a complex mix reflecting the fears and aspirations of public interest groups, bureaucratic sets and important individuals. International conflict cannot be resolved without resolving how foreign policy is motivated. This book presents a conceptual framework for identifying and weighing foreign policy motives that shape direct and alter foreign policy. *The Restructuring of Thailand's Foreign Policy Towards Laos, 1988-1991* David D.
