**The Origin of the Greek Alphabet: A New Perspective** YAN Pui-chi (顏佩琪),IP Lup-ng (盧立平),2022-03-11 This book offers a whole new perspective on the history of the birth of the Greek alphabet It also aims to give a clear account of how ancient Greek alphabetic writing could naturally evolve into the world s first segmental writing system in which vowel and consonant letters are used to represent vowels and consonants respectively This book should be of great interest to linguists and phoneticians especially those taking an interest in the world s writing systems General readers who are curious about the genesis of the Greek alphabet are also likely to find the subject of the book interesting      **A commentary on the first Epistle to the Corinthians** Thomas Charles Edwards,1885      A History of the Evangelical Union from Its Origin to the Present Time Fergus Ferguson (Minister of Montrose Street E.U. Church, Glasgow.),1876      **The First Epistle to the Corinthians** John James Lias,1885      A Commentary on St. Paul's Epistles to the Corinthians Joseph Agar Beet,1882

**Corinthian Wisdom, Stoic Philosophy, and the Ancient Economy** Timothy A. Brookins,2014-07-28 This work re examines the divisive wisdom that Paul addresses in 1 Corinthians Challenging the recent consensus that the Corinthians wisdom was rooted primarily in the Greco Roman rhetorical tradition Timothy A Brookins offers a revisionary thesis centered on discourse similarities between the perspective of the Corinthian wise and the Stoic system of thought Brookins argues that several members of the church after hearing Paul s initial gospel message construed that message in terms of Stoic philosophy and began promoting a kind of Stoic Christian perspective that helped to precipitate divisions in the church Being apprised of their views Paul then exploited the Stoic discourse of his opponents in order to sustain common discursive ground In addition to providing a fresh synthesis of the data in 1 Corinthians Brookins brings in cutting edge research on the ancient economy as he explores questions related to philosophical education and social status within the church community

The Corinthian Correspondence Frank W. Hughes,Robert Jewett,2021-10-19 In *The Corinthian Correspondence* Frank W Hughes and Robert Jewett argue that there were eight original letters by the Apostle Paul to the church in Corinth In the first part of the book they use literary and redaction criticism to show the reasons for the partition theory of 1 and 2 Corinthians Analyzing each of the eight letters and letter fragments using rhetorical criticism they show how the original Corinthian letters were edited and reshaped into 1 and 2 Corinthians in the New Testament After reflections on the rhetoric of these letters and the historical meaning of the reshaping of the images of Paul a final chapter traces the consequences of the reshaping of the Corinthian correspondence and the adoption of the bound book codex instead of the original papyrus scrolls Several figures help the reader understand the redactional process and a new translation of the eight reconstructed Corinthian letters is provided      *Robes, Romans, and Rituals in First Corinthians* Aldar Nommik,2025-08-11 This thesis offers a novel interpretation of 1 Cor 11 2 16 in light of the Roman ritual practice of capite velato a custom of covering the

head with a garment during prayer sacrifice and divination It traces linguistic and conceptual links between ancient descriptions and depictions of *capite velato* and 1 Cor 11 2 16 and demonstrates that this ritual gesture must have been familiar to Paul and his Corinthian interlocutors With the aid of cognitive science of religion this thesis explores the possible reasons for and implications of Paul's instructions on this Roman custom in First Corinthians It argues that 1 Cor 11 2 16 preserves a clash of values between Paul and his addressees in regards to the correct procedure and efficacy of prayer and accessing of divine knowledge some in Corinth had begun to argue that for the sake of uniformity all members of the Christ association including married women of all cultures should strip their heads of everything when in prayer or when seeking divine knowledge to match the appearance of Roman men whom Paul had asked not to pray with garments over the head In response to this Paul found a way to argue that praying with a garment over the head is only shameful for men but the same does not apply for women and so women can keep their head coverings and hair accessories on during prayer and prophecy While these instructions may have been intelligible to the original readers later interpreters of Paul who had no knowledge of the *Sitz im Leben* that prompted 1 Cor 11 2 16 misunderstood and misappropriated Paul's instructions in this passage mistakenly believing Paul to have been solely concerned with a faction of rebellious women in the Corinthian congregation These assumptions have dominated the readings of 1 Cor 11 2 16 but this thesis offers an alternative interpretation that builds on a more accurate understanding of ancient customs and ideals related to ritual head coverings
