

THE ORIGINS OF MODERN GERMANY

Geoffrey Barraclough

The Origins Of Modern Germany

Hajo Holborn

The Origins Of Modern Germany:

The Origins of Modern Germany Geoffrey Barraclough, 1960 *The Origins of Modern Germany* Geoffrey Barraclough, 1947 **A History of Modern Germany** Hajo Holborn, 1959 This first volume of a major reassessment of the last five centuries of German history deals with that age of German history which had the widest effect on the rise of modern Western civilization Against the background of medieval culture the author shows the origins of Luther's religion and the growth of various Protestant churches as well as the subsequent restoration of the Roman Catholic Church The history of the religious movements of the Reformation and the Counter Reformation is closely coordinated with the great transformation simultaneously taking place in the social economic and intellectual institutions of Europe Included are detailed discussions of the effects of the Black Death the rise of the cities Luther's social ethics The Thirty Years War and the Peace of Westphalia in 1648 **A History of Modern Germany** Hajo Holborn, 1965 **The Oxford History of Modern German Theology, Volume 1: 1781-1848** Grant Kaplan, Kevin M. Vander Schel, 2023-05-20 From the closing decades of the eighteenth century German theology has been a major intellectual force within modern western thought closely connected to important developments in idealism romanticism historicism phenomenology and hermeneutics Despite its influential legacy however no recent attempts have sought to offer an overview of its history and development Oxford History of Modern German Theology Vol I 1781 1848 the first of a three volume series provides the most comprehensive multi authored overview of German theology from the period from 1781 1848 Kaplan and Vander Schel cover categories frequently omitted from earlier overviews of the time period such as the place of Judaism in modern German society race and religion and the impact of social history in shaping theological debate Rather than focusing on individual figures alone Oxford History of Modern German Theology Vol I 1781 1848 describes the narrative arc of the period by focusing on broader intellectual and cultural movements ongoing debates and significant events It furthermore provides a historical introduction to each of the chronological subsections that divides the book Moreover unlike previous efforts to introduce this time period and geographical region the volume offers chapters covering such previously neglected topics as religious orders the influence of Romantic art secularism religious freedom and important but overlooked scholarly initiatives such as the Corpus Reformatorum Attention to such matters will make this volume an invaluable repository of scholarship and knowledge and an indispensable reference resource for decades to come The Origins of Modern Germany Geoffrey Barraclough (historien.), 1966 **A History of Modern Germany, Volume 1** Hajo Holborn, 1982-12-21 This first volume of a major reassessment of the last five centuries of German history deals with that age of German history which had the widest effect on the rise of modern Western civilization Against the background of medieval culture the author shows the origins of Luther's religion and the growth of various Protestant churches as well as the subsequent restoration of the Roman Catholic Church The history of the religious movements of the Reformation and the Counter Reformation is closely coordinated with the great

transformation simultaneously taking place in the social economic and intellectual institutions of Europe Included are detailed discussions of the effects of the Black Death the rise of the cities Luther s social ethics The Thirty Years War and the Peace of Westphalia in 1648 *A History of Modern Germany: The Reformation* Hajo Holborn,1982-12-21 A three volume reassessment of the last five centuries of German history *A History of Modern Germany* Dietrich Orlow,2011-12-29

Germany Hagen Schulze,1998 In one concise volume Hagen Schulze brilliantly conveys the full sweep of German history from the days of the Romans to the fall of the Berlin Wall A story two thousand years in the making it rings with battle murmurs with intrigue and hums with the music of everyday life This richly various legacy often overshadowed and distorted by the nation s recent past offers a hopeful answer to the perennial question of what kind of country Germany is and will be From the revolt of the indigenous tribes against Roman domination Schulze leads us through the events that have defined a nation at the center of European culture the Thirty Years War and the decline of the Holy Roman Empire Luther s Reformation and Bismarck s attendance at the birth of modern Germany the Great War and its aftermath the nationalistic megalomania under Hitler the division of the nation after World War II and its reunification Throughout we see what these developments have meant for the German people in the arena of private life and on the stage of world history A lavish array of illustrations provides a lively counterpoint to Schulze s elegantly written narrative As it follows the threads of German language nationalism and culture to the present day this dramatic account provides ample reassurance that recent history will not repeat itself *Germany A New History* will prove indispensable to our understanding of Germany past and present and the future of Europe

Catalogue, 1926-1968 Great Britain. Foreign Office. Library,1972
