**Infranomics** Adrian V. Gheorghe, Marcelo Masera, Polinapapilinho F. Katina, 2013-12-03 This book provides a rough entry into the interdisciplinary field of Infranomics It enables better decision making in an increasing ambiguous complex emergent interdependent and uncertain world where we attempt to anticipate modern society trends and patterns in order to react appropriately However as with any emerging discipline much research is needed at the applications and conceptual level The applications level may require development and testing of methods tools and techniques to enable analysis and decision making in ambiguous complex emergent interdependent and uncertain conditions while the conceptual level may require tapping into driving philosophies theories and methodologies that form the basis for Infranomics Striking the right balance between applications and conceptual foundation theory requires rigorous research This book provides a springboard for robust discussions on applications theory and transformation of current thinking to better deal with modern society s problematic issues using Infranomics **Merced Wild and Scenic River** United States.
