Honey And Vinegar Incentives Sanctions And Foreign Policies:

Honey and Vinegar Richard N. Haass, Meghan L. O'Sullivan, 2001-09-19 Buttressed by input from scholars diplomats and observers with an intimate knowledge of U S foreign policy Honey and Vinegar examines engagement strategies that primarily involve the use of positive incentives The book contends that although engagement has received little scrutiny relative to other more punitive foreign policy approaches it has great potential as a tool for modifying the behavior of regimes with which the United States has significant disagreements Heightened awareness of the costs associated with the use of sanctions or military force has catalyzed a search for policy alternatives In this quest to find other appropriate policy options for pursuing foreign policy goals strategies of engagement warrant serious consideration As argued in these pages the use of incentives rather than penalties may be particularly well suited to the post Cold War world where globalization has made the economic isolation of any country difficult to achieve At the same time the collapse of the Soviet Union has meant that American carrots may be especially savory to many regimes once reliant on Soviet support Paradoxically engagement can be a good choice even when it fails in that it can open the door for other policy options For instance the two years in which America tried to engage Saddam Hussein before the Gulf War worked to the advantage of the United States later After Iraq's invasion of Kuwait in 1990 American efforts to build a military coalition to oppose Iraq were facilitated by the sense in the region that the United States had earlier pursued a conciliatory policy but to no avail Contributors to this volume have provided seven cases exploring episodes of engagement relations between the United States and China Europe's Critical Dialogue with Iran U S engagement with Iraq from 1988 to 1990 U S efforts to engage North Korea the combination of U S persuasion and coercion toward South Africa in the apartheid era the les Bilateral Diplomacy Kishan S. Rana, 2002

Compound Containment Dong Jung Kim, 2022-03-07 When does a reigning great power of the international system supplement military containment of a challenging power by restricting its economic exchanges with that state Scholars of great power politics have traditionally focused on examining a reigning power's military containment of a challenging power In direct contrast Compound Containment demonstrates that these conventional studies are flawed without a sound understanding of the multilayered aspects of containment strategy in great power politics Since economic capacity and military power are intimately linked to one another countering a challenging power requires addressing both economic and military dimensions Nonetheless this nexus of security and economy in a reigning power's response to a challenging power cannot be explained by traditional theories that dominate research in international security Author Dong Jung Kim fills a gap in the scholarship on great power competition by investigating when a reigning power will make its military containment of a challenging power compound by simultaneously employing restrictive economic measures Its main theoretical claims are corroborated by an analysis of key historical cases of reigning power challenging power competition This book also offers policy prescriptions for the United States by examining whether the United States is in a position to complement military

containment of China with restrictive economic measures

Weapons Proliferation and War in the Greater Middle

East Richard L. Russell, 2007-05-07 This important new book explores the strategic reasons behind the proliferation of nuclear biological and chemical weapons as well as ballistic missile delivery systems in the Greater Middle East It examines the uses and limitations of chemical weapons in regional combat ballistic missile warfare and defenses as well as Iran's drive for nuclear weapons and the likely regional reactions should Tehran acquire a nuclear weapons inventory This book also discusses Chinese assistance to WMD and ballistic programs in the Greater Middle East Finally this book recommends policy options for American diplomacy to counter the challenges posed by WMD proliferation This essential study prepares the ground for the challenges facing the international community Richard Russell is a professor at the National Defense University's Near East South Asia Center for Strategic Studies in Washington DC He also teaches at the Security Studies Program at Georgetown University He previously served as a political military analyst at the CIA *From Empire to*

Community Amitai Etzioni, 2015-01-06 Whether one favors the U S global projection of force or is horrified by it the question stands where do we go from here What ought to be the new global architecture Amitai Etzioni follows a third way drawing on both neoconservative and liberal ideas in this bold new look at international relations He argues that a clash of civilizations can be avoided and that the new world order need not look like America Eastern values including spirituality and moderate Islam have a legitimate place in the evolving global public philosophy Nation states Etzioni argues can no longer attend to rising transnational problems from SARS to trade in sex slaves to cybercrime Global civil society does help but without some kind of global authority transnational problems will overwhelm us The building blocks of this new order can be found in the war against terrorism multilateral attempts at deproliferation humanitarian interventions and new supranational institutions e g the governance of the Internet Basic safety human rights and global social issues such as environmental protection are best solved cooperatively and Etzioni explores ways of creating global authorities robust enough to handle these issues as he outlines the journey from empire to community *National Security Law Report*, 2000 **The Domestic Politics of**

American Foreign Policy Since World War II, 17th Edition

Steven W Hook, J. Spanier, 2006-07-15 Presents an examination of the conduct of American foreign policy in the second half of the twentieth century looking at Cold War developments the post Cold War period the war on terrorism and the problems facing the U S in the early 2000s **American Foreign Policy Since World War II** Steven W. Hook, John W. Spanier, 2004 Presents an examination of the conduct of American foreign policy in the second half of the twentieth century looking at Cold War developments the post Cold War period the war on terrorism and the problems facing the U S in the early 2000s

American Primacy and Multilateral Cooperation Richard S. Williamson, 2006 *Fundamentals Of U.s. Foreign Trade Policy* Stephen D Cohen, Robert A Blecker, Peter D. Whitney, 2003 Cohen Blecker and Whitney professors of international relations and economics at American U see the formation of U S trade policy is seen as a combination of competing forces of

political economic and legal factors They attempt to show how trade policymaking involves reconciling a range of economic goal and political necessities After reviewing the history of trade policymaking in the United States they separately examine the three factors before integrating them into a model of political economy that explores both import and export policy Annotation copyrighted by Book News Inc Portland OR American Foreign Policy Glenn P. Hastedt,2006 For courses in upper level American Foreign Policy This text brings together 3 key elements for both students and professors It provides an overview of the historical information to make sense of current U S foreign policy it supplies case studies to give students grounding in key events in U S foreign policy and information on contemporary issues and it incorporates concepts that structure an investigation into U S foreign policy The focus is on U S policy itself and not on U S foreign policy toward specific regions or issues *Dialogue on U.S.-Vietnam Relations* ,2003 Bilateral dialogue of US Vietnam relationship

Weaker States, Risk-taking, and Foreign Policy Jihwan Hwang,2005 **American Foreign Relations Since 1600** Robert L. Beisner,2003 In this book a team of distinguished historians has culled the most important published and unpublished works in U S diplomatic literature and thoroughly annotated them The work comprehensively covers five centuries from America s colonial era to the end of the 20th century with half the entries on works published since the first edition and nearly half on post World War II subjects **Cardozo Journal of International and Comparative Law** ,2002

International Affairs ,2001 Peace and Prosperity Policy and Peace Regime on the Korean Peninsula In-dök Kang,2005 *The Politics of Intelligence and American Wars with Iraq* Ofira Seliktar,2008-01-15 Coming at the heels of September 11 Operation Iraqi Freedom has focused the limelight on the way in which the United States predicts and manages political change The failure to find WMD and more important the continued violence in Iraq instead of the hoped for democracy has engender an acrimonious debate on the motives of the Bush administration and its uses or misuses of intelligence The question of who got what right or wrong has been fought out along ideological and partisan lines with supporters claiming that given what was known about Saddam Hussein the decision to change his regime was justified and detractors arguing that a group of largely Jewish neoconservatives acting on behalf of Israel manipulated intelligence in order to trick the United States into an unnecessary and costly war The book provides a systematic and objective analysis of the problems that faced American intelligence in deciphering the behavior of the highly secretive and confusing Iraq regime and its enigmatic leader *The Brookings Institution Annual Report* Brookings Institution,2000
