The Age Of Total Warfare:

The Age of Total War, 1860-1945 Jeremy M. Black, 2006-03-31 What is total war Definitions abound but one thing is certain the concept of total war has come to be seen as a defining concept of the modern age Celebrated historian Jeremy Black explores the rise and demise of an era of total war which he defines in terms of the intensity of the struggle the range geographical and or chronological of conflict the nature of the goals and the extent to which civil society was involved He contends that this era roughly 1860 1945 was markedly different from the warfare that characterized earlier periods and that it is very different from the situation that has evolved since with its emphasis on asymmetrical conflict and limited warfare Acknowledging that various definitions are problematic and often contradictory Black argues that 1860 to 1945 was an era in which the prospect of war and the consequences of it were crucially important for human history He focuses primarily on conflict between Western powers including Japanese participation in the Russo Japanese War Trends and developments subsequent to 1945 have combined Black asserts to make a return to total war unlikely **The Age of Total Warfare** Hannsjoachim Wolfgang Koch, 1985 Kapitler Clausewitz and Total War Military Science and Society Army and Society France Army and Society Britain Army and Society Germany The Forgotten War World War I World War II The Nuclear Age *The Age of Total War, 1860-1945* Jeremy Black, 2010-09-16 What is total war Definitions abound but one thing is certain the concept of total war has come to be seen as a defining concept of the modern age In *The Age of Total War* celebrated historian Jeremy Black explores the rise and demise of an era of total war which he defines in terms of the intensity of the struggle the range geographical and or chronological of conflict the nature of the goals and the extent to which civil society was involved He contends that this era roughly 1860 1945 was markedly different from the warfare that characterized earlier periods and that it is very different from the situation that has evolved since with its emphasis on asymmetrical conflict and limited warfare Acknowledging that various definitions are problematic and often contradictory Black argues that 1860 to 1945 was an era in which the prospect of war and the consequences of it were crucially important for human history He focuses primarily on conflict between Western powers including Japanese participation in the Russo Japanese War Trends and developments subsequent to 1945 have combined Black asserts to make a return to total war unlikely **Colburn's United Service Magazine and Naval and Military Journal** , Shadow on the White House David L. In the late 1930s a number of American women especially those allied with various peace and isolationist groups protested against the nation s entry into World War II While their story is fairly well known Margaret Paton Walsh reveals a far less familiar story of women who fervently felt that American intervention was absolutely necessary Paton Walsh recounts how the United States became involved in the war but does so through the eyes of American women who faced it as a necessary evil Covering the period between 1935 and 1941 she examines how these women functioned as political actors even though they were excluded from positions of power through activism in women s organizations informal women s networks and even male dominated lobbying groups In the Great Debate over whether America should enter the war some women favored aid to the Allies not because they hoped for war but because they hoped aid would forestall more direct U S involvement but also because they believed war was preferable to a Nazi victory Paton Walsh shows that this activism involved some of the most prominent women of their day Elizabeth Cutter Morrow whose son in law Charles Lindbergh was an isolationist spokesman supported the revision of the Neutrality Acts to allow the sale of arms to the Allies and expressed her support in a national radio broadcast Soon other women joined this debate Esther Brunauer of the AAUW journalist Dorothy Thompson and organizations like the League of Women Voters and National Women s Trade Union League broke from the pacifist tradition to advocate American aid for the Allied cause Focusing on the conflict in Europe Paton Walsh shows how these women grasped the implications of the Lend Lease program for America s entry into the war but supported it nevertheless By late 1941 the Women s Division of the Fight for Freedom Committee had been established no longer merely advocating aid to Britain to keep American boys out of battle this organization supported direct American involvement in the war as a means of stopping Nazi oppression While most historians have focused on women s pacifism Paton Walsh connects women more directly to world events and shows how those interventionists reformulated maternalist ideas to justify and explain their beliefs *Our War Too* is a story of American women trying to reconcile the irreconcilable to preserve both their principles and their peace It expands our understanding of
