Envy Of The Gods Alexander The Greats Ill Fated Journey Across Asia:

Envy of the Gods John Prevas, 2004 *Alexander the Great* Krzysztof Nawotka, 2009-12-14 This book is possibly the most comprehensive biography of Alexander in print. It presents his story strictly on the basis of ancient sources, making use of as much as possible of contemporary Greek inscriptions, coins, and of non-western evidence: Babylonian tablets, Egyptian papyri, Bactrian parchments. The latter, in particular, change our understanding of how the Achaemenid state was run and how the Macedonian conquests were perceived from the Oriental perspective. The book's protagonist was the first in Western Civilization to be hailed Great. The specific aura and charisma of this young ruler, the scale of his conquests and the exotic landscapes and peoples encountered during a tireless trek of over 35 000 km spanning three continents is what the broader public have always found particularly appealing. The author travelled extensively in the footsteps of Alexander and made use of other geographical accounts to elucidate the spatial perspective of his conquests. Space and politics define the dynamics of his story. The author presents Alexander as a component of the historical processes in his epoch and considers his influence on developments in Greece, Macedonia, the Persian Empire and neighbouring countries. The book tries to steer clear of both idealizing Alexander the Great, typical of some earlier modern biographies, and of deconstructing his personality, which mars the minimalist approach of today's scholarship.

Greek and Macedonian Land Battles of the 4th Century B.C. Fred Eugene Ray, Jr., 2012-10-06 With its mixture of famous battles and storied commanders, warfare in 4th century B.C. Greece has long held a fascination for military enthusiasts and the general public alike. Histories, biographies, and popular culture have turned the exploits of noted generals like Xenophon and Iphicrates of Athens, Epaminondas of Thebes, and the father-son team of Philip II and Alexander the Great of Macedonia into the stuff of legend. Drawing from ancient accounts along with suitable analogs, this detailed work offers meticulous reconstructions of 187 of the 4th century's most significant land engagements, considering tactical patterns, evolving trends, and the lasting impact of the era's most influential military minds. By separating myth from reality, these recreations provide incredible insight into past ways of war that continue to influence the course of combat today.
