Surprise: An Emotion? Natalie Depraz, Anthony J. Steinbock, 2019-01-09 This volume offers perspectives on the theme of surprise crossing philosophical phenomenological scientific psycho physiology psychiatric and linguistic boundaries The main question it examines is whether surprise is an emotion It uses two main theoretical frameworks to do so psychology in which surprise is commonly considered a primary emotion and philosophy in which surprise is related to passions as opposed to reason The book explores whether these views on surprise are satisfying or sufficient It looks at the extent to which surprise is also a cognitive phenomenon and primitively embedded in language and the way in which surprise is connected to personhood the interpersonal and moral emotions Many philosophers of different traditions a number of experimental studies conducted over the last decades recent works in linguistics and ancestral wisdom testimonies refer to surprise as a crucial experience of both rupture and openness in bodily and inner life However surprise is a theme that has not been dealt with directly and systematically in philosophy in the sciences in linguistics or in spiritual traditions This volume accomplishes just that

Peace, Complexity, Visuality Rasmus Bellmer, Frank Möller, 2023-08-12 This book argues that we can capitalize on the tolerance of ambiguity enhancing potentialities inherent in visual images their non coherence and thus increase our capability of tolerating ambiguities Studying international relations equals studying ambiguity The international system is complex and

where there is complexity there is also ambiguity Crucially in a world saturated not only with ambiguities but also with visual images it is mandatory to think ambiguity and visuality together The authors analyze the constructive and peaceful potentialities of ambiguities through an exploration of journalistic imagery in the context of post war Bosnia and post siege Sarajevo The book is a theoretically sophisticated yet accessible and politically relevant exercise in inter disciplinary thinking uniquely combining literature on complexity ambiguity and visuality thus offering important readings for international relations peace and conflict research and security studies
