**of Mighty Women** Arlene Kramer Richards, Lucille Spira, 2018-05-08 Women whose mothers were not called upon to achieve in a man's world have a difficult time seeing themselves as powerful enough to do that Identifying with mighty women of the past and of the present culture can help them to permit themselves to achieve more than their mothers did This book provides several such myths from ancient and modern cultures from both Western and Eastern traditions each of which is a standard for a particular aspect of female power and all of which can provide that power for women now Among the aspects of women's power are Super Girl Warrior Woman Evil Temptress Protective Mother and Provider This book is useful for therapists to read themselves and or to give to their patients when they suffer from fantasies of the bad mother who does not want to be surpassed or the weak mother who cannot protect or the therapist who wants to keep the woman patient in a weak and needy position Shame and Creativity Vibeke Skov, 2017-08-23 Shame and Creativity From Affect Towards Individuation is about shame and the ways in which we can use creative methods to transform shame into a lifelong process of self development Using a Jungian understanding of the personal and collective unconscious shame is described as a key

affect in relation to self worth and quality of life The book is divided into three parts Part One is about shame based on affect theory Jungian psychology and psychological creativity Part Two discusses shame in relation to seven primary affects introducing the Blue Diamante model to describe how shame is often hidden behind other affects and suggesting that all affects must be involved in processing shame Part Three identifies the steps in the Blue Diamante model with the ancient myth of Inanna s descent to the underworld it discusses the development of the original self behind shame and presents a new model for transforming the relationship between the masculine and feminine aspects of the psyche together with art therapy methods The originality of Shame and Creativity lies in its combination of affect theory Jungian psychology and a creative methodology It aims to inspire clinicians to recognize shame and to work more directly with shame as it appears in therapy The book will be of great interest to art therapists and students of art therapy It will also appeal to all readers interested in creativity shame Jungian analysis and affect theory
