**Public Health Promotion and Medical Education Reform, volume III** Jian Chen,Xiaoyun Zeng,Zhiyong Zhang,Yasusei Kudo ,Trine Fink,2025-11-18 This Research Topic is part of the series of Public Health Promotion and Medical Education Reform Public Health Promotion and Medical Education Reform Volume I Public Health Promotion and Medical Education Reform Volume II All over the world more than 80% of medical service and public health education are conducted by graduates from local regional medical schools Therefore these schools are facing the pressing demand for better health services principally due to population growth and greater public health awareness However the traditional medical education is failing to cope with these challenges largely because of didactic teaching methods fragmented curricula and passive learning which cannot train our students to become self directed lifelong learners

and qualified healthcare workers. We are also very aware that simply expanding the class size of medical schools and opening new medical schools cannot meet this demand. The medical school educators thus implement a series of reform across every aspect of the medical education e.g. teaching content, style and methodology which has been gradually deepened in many majors such as medicine, nursing, pharmacy and public health. Otherwise, the outbreak of 2019 novel coronavirus emphasizes the vital interplay of public health and medical education disciplines, promoting the integration of public health content into medical education. That is, the better healthcare workers for the future should be responsible for not only disease diagnosis and treatment but also health promotion and disease prevention. The COVID 19 pandemic reveals the urgent need for healthcare services worldwide that is outstripping the pace of healthcare workforce growth, underlining the necessity of a paradigm shift in medical education. Therefore, the aim of the Research Topic is to provide a comprehensive overview of current reform attempts in education for healthcare workers mainly but not exclusively focusing on the high quality research studies carried out in local regional medical schools. In addition, it is being widely accepted that disease prevention and health promotion may be more effective in improving the health status of a population. We thus greatly encourage contributions providing innovative methods and assessment of incorporation of core public health into the medical curricula. Both ongoing and completed original research work is welcome. Consequently, areas to be covered in this Research Topic may include but are not limited to: Situation and trends of public health research practice and policy; Development and evaluation of public health education; National and international medical education reform to produce well-trained students and workers; undergraduates and postgraduates; local regional medical schools; Implementation and evaluation of integrating public health content in the medical curricula.

Six Lessons With Delphi: Bestsellers in 2023 The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous compelling novels captivating the hearts of readers worldwide. Lets delve into the realm of top-selling books, exploring the captivating narratives that have captivated audiences this year. The Must-Read : Colleen Hoovers "It Ends with Us" This heartfelt tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover expertly weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can prevail. Six Lessons With Delphi : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This intriguing historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids captivating storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Six Lessons With Delphi : Delia Owens "Where the Crawdads Sing" This mesmerizing coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens spins a tale of resilience, survival, and the transformative power of nature, entrancing readers with its evocative prose and mesmerizing setting. These top-selling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of engaging stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and gripping novel that will keep you guessing until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
