

The Sino-Soviet Rift

- Mao wanted the Communist bloc to challenge the capitalist West; Khrushchev believed in peaceful coexistence.
- Khrushchev, who was trying to raise living standards in the USSR, was reluctant to give China the help they needed during the Great Leap disaster.
 - Also refused to give them a prototype atomic bomb.
- By 1960, the relationship had deteriorated and the Soviets removed all its 1,390 experts and advisors from China.

Braddick, 2003-12-09 Japan and the Sino Soviet Alliance 1950 1964 reveals the divisive impact of the Sino Soviet Alliance on Japanese domestic politics and foreign relations during the turbulent years between 1950 and 1964 Drawing on extensive Japanese sources and unprecedented access to previously classified government documents C W Braddick exposes the myths shrouding this formative era in Japan s postwar development Communism in Europe: European communism and the Sino-Soviet rift, by W. Griffith, 1964 **Sino-Soviet Dialogue on the Problem of War** S. Yin, 2012-12-06 The author has spent upwards of ten years in working on this book His objective is to clarify the military aspect of the Moscow Peking dialogue which has not yet received its deserved treatment The apogee of that dialogue seems to have been passed toward the end of the rule of Khrushchev Yet the Vietnam war spawns fresh contention Our cover age will span the development from 1956 to the present The beginning of the dispute with regard to the origins of war in general is taken up in the first two chapters The next three chapters discuss the several types of war with the frame of reference set in what now appears to be a quondam era But the principle differences between the disputants are just as outstanding today as they were then The penultimate chapter is somewhat wide in scope in order to deal with the larger and more intensely bitter polemics evolving after Khrushchev left office There have been many new and startling views held by both sides since then views splitting them poles apart Ominously at issue now is the question of Sino Soviet peaceful coexistence Our work obviously cannot wait until that question is answered to be finished The final chapter concludes our study To write of subjects as dynamic as this one is a challenge because they are current affairs Due to the swift change of events no sooner is our typescript put to press than it needs a revision Communism in Europe: European communism and the Sino-Soviet rift, by W.E. Clemens, 1965 Sino-Soviet Relations in the 1950s Hiroki Takeuchi, 1999 **Becoming Asia** Alice Lyman Miller, Richard Wich, 2011-01-20 At the conclusion of World War II Asia was hardly more than a geographic expression Yet today we recognize Asia as a vibrant and assertive region fully transformed from the vulnerable nation states that emerged following

the Second World War The transformation was by no means an inevitable one but the product of two key themes that have dominated Asia s international relations since 1945 the competition between the United States and the Soviet Union to enlist the region s states as assets in the Cold War and the struggle of nationalistic Asian leaders to develop the domestic support to maintain power and independence in a dangerous international context Becoming Asia provides a comprehensive systemic account of how these themes played out in Asian affairs during the postwar years covering not only East Asia but South and Central Asia as well In addition to exploring the interplay between nationalism and Cold War bipolarity during the first postwar decades authors Alice Lyman Miller and Richard Wich chart the rise of largely export led economies that are increasingly making the region the global center of gravity and document efforts in the ongoing search for regional integration The book also traces the origins and evolution of deep rooted issues that remain high on the international agenda such as the Taiwan question the division of Korea and the threat of nuclear proliferation the Kashmir issue and the nuclearized Indian Pakistani conflict and offers an account of the rise of China and its implications for regional and global security and prosperity Primary documents excerpted throughout the text such as leaders talks and speeches international agreements secret policy assessments enrich accounts of events offering readers insight into policymakers assumptions and perceptions at the time
