Situation In China:

China's Crisis Behavior Kai He, 2016-04-06 The first study to systematically analyze the patterns of China's foreign policy crisis behavior after the Cold War

China's Soil Pollution and Degradation Problems Claudio O. Delang, 2017-05-18 China's air pollution is infamous. The haze can make it impossible to see buildings across the street and the pollution forces schools to close and creates health and morbidity problems in addition to tremendous environmental degradation. However, China also faces another important environmental problem which is less well known to the public than that of soil degradation and pollution. This book provides an overview of the problems related to soil degradation and pollution throughout China, examining how and why current policy has fallen short of expectation. It also examines the challenges faced by policy makers as they attempt to adopt sustainable practices alongside a booming and ever-expanding economy. China's Soil Pollution and Degradation Problems utilizes grey literature such as newspaper articles, NGO reports and Chinese government information alongside academic studies in order to provide an extensive review of the challenges faced by grassroots organizations as they tackle environmental policy failings throughout China. This book will be of great interest to students of environmental pollution and contemporary Chinese studies looking for an introduction to the topics of soil pollution and soil degradation and for researchers looking for an extensive list of sources and analysis of China's environmental problems more broadly.

China's Intellectuals and the State Merle Goldman, Timothy Cheek, Carol Lee Hamrin, 1987 This book examines the troubled and changing relationship today's intellectuals in China have to the state. It focuses primarily on the post-Mao years when bitter memories of the Cultural Revolution and China's renewed quest for modernization have at times allowed intellectuals increased leeway in expression and more influence in policy making.

Annual Report on the Development of China's Special Economic Zones (2019) Yitao Tao, Yiming Yuan, 2022-08-12 This book provides with its readers an objective overview of the latest development of China's special economic zones in 2019. It aims to inform researchers what achievements have been attained in one year and tells stories to general readers about how to address economic concerns through public policies. Its case studies illustrate economic achievements attained in public health, social security and cultural industries. Its in-depth analyses of green, environmental-friendly and resource-efficient policies can satisfy the curiosity about strategies applied by China meeting its economic challenges.

China's economic performance and position on the global market Kim Clay, 2014-03-14 Seminar paper from the year 2010 in the subject Economics International Economic Relations grade B University of Kent language English abstract The rise of China as main world power promises to experiment the established global order in the upcoming decades. As the powers develop, it is definite to change the present international system with profound implications for itself, the United States and the world. The synchronised rise of China symbolises a geopolitical event of historic quantities. Rarely has the global system beheld the re-emergence of one major power state that owns large populations, has ancient and storied histories, spatially and politically, and rules the geographic

environs within which it is located The recent revitalization of China is due to its large measure to its industrious integration into the profuse economic order built and sustained by American domination in the post war period Because of that integration China has witnessed intense stages of trade and industry progression in latest times Borensztein Reinhart 1994
