Feature Selection and Enhanced Krill Herd Algorithm for Text Document Clustering Laith Mohammad Qasim Abualigah,2018-12-18 This book puts forward a new method for solving the text document TD clustering problem which is established in two main stages i A new feature selection method based on a particle swarm optimization algorithm with a novel weighting scheme is proposed as well as a detailed dimension reduction technique in order to obtain a new subset of more informative features with low dimensional space This new subset is subsequently used to improve the performance of the text clustering TC algorithm and reduce its computation time The k mean clustering algorithm is used to evaluate the effectiveness of the obtained subsets ii Four krill herd algorithms KHAs namely the a basic KHA b modified KHA c hybrid KHA and d multi objective hybrid KHA are proposed to solve the TC problem each algorithm represents an incremental improvement on its predecessor For the evaluation process seven benchmark text datasets are used with different characterizations and complexities Text document TD clustering is a new trend in text mining in which the TDs are separated into several coherent clusters where all documents in the same cluster are similar The findings presented here confirm that the proposed methods and algorithms delivered the best results in comparison with other similar methods to be found in the literature

The Circular Role of Higher Education Lorenzo Lotti,Lory Barile,2025-01-21 This edited volume presents a series of case studies and research evidence on how global students contribute to widening the debate on sustainability within Higher Education institutions by offering their own stories along with academics and external stakeholders they create a unique context where their diverse backgrounds are combined into a wider learning experience This environment enables them to return to their communities and provide leadership and support in tackling real life sustainability related issues they may face This book describes this circular and virtuous process which we refer to as Circular Education Through this process Higher Education institutions are enriching environments and supporting communities and their cultural hubs Readers will discover how students can add to and learn from this critical dialogue with peers academics and external stakeholders It is of interest for students policymakers academics and any other institution and organization interested in promoting sustainability in Higher Education

The Irish Reports ,1898 *ASEAN's External Agreements* Marise Cremona,David Kleimann,Joris Larik,Rena Lee,Pascal Vennesson,2015-04-16 ASEAN is coming of age as an international actor and international treaty maker To date more than two hundred external agreements and other instruments have been concluded in the name of ASEAN This book provides the first systematic account of the legal framework governing ASEAN's burgeoning external relations practice It focuses in depth on ASEAN's wide ranging mandate to promote its values and principles in the wider region and beyond as well as the highly intergovernmental and at times haphazard handling of the bloc's relations with the outside world Furthermore it reveals that there are two basic meanings of ASEAN in its international

dealings which have important implications under international law ASEAN as an international organisation with its own legal personality and ASEAN as the collectivity of its member states This timely and thoughtful book is a valuable resource for practitioners and scholars of international law ASEAN law international relations regional integration and governance
