New Perspectives in Critical Data Studies Andreas Hepp,Juliane Jarke,Leif Kramp,2022-05-20 This Open Access book examines the ambivalences of data power Firstly the ambivalences between global infrastructures and local invisibilities challenge the grand narrative of the ephemeral nature of a global data infrastructure They make visible local working and living conditions and the resources and arrangements required to operate and run them Secondly the book examines ambivalences between the state and data justice It considers data justice in relation to state surveillance and data capitalism and reflects on the

ambivalences between an entrepreneurial state and a welfare state Thirdly the authors discuss ambivalences of everyday practices and collective action in which civil society groups communities and movements try to position the interests of people against the big players in the tech industry The book includes eighteen chapters that provide new and varied perspectives on the role of data and data infrastructures in our increasingly datafied societies
