*History of Maintenance of Indian Air Force 1977-2016* A Krupakaran, P Khandekar, 2022-08-13 IAF from its humble beginning in 1932 has transformed itself into fourth largest AF operating at frontiers of technologies with multi dimensional capabilities and a potent force to reckon with. It is said that the history is written by winners. But what is important is that the history is documented impartially objectively and factually as much as possible. It may be worth for IAF to consider coming out with a book each on Operations Maintenance and Administration depicting the historical decisions taken successes and failures in equal measure and how the IAF progressed over the decades to be what it is today a professionally managed optimally exploited synergistically working and one of the most effective instruments of national power to ensure accomplishing objectives of the nation. Yes coffee table books and anniversary issues do gloss over a few events but the real history is made by the toil blood and sweat and tears of the men behind these operations. Individual awards and citations many times compromise on actualities and are miserly with truth. History is an argument without an end said Pieter Geyl the Dutch historian. I am glad to recommend this book to all as the readers of the book irrespective of their background will enjoy the journey of these spanners and screwdrivers of 12 AEC covering almost 900 man years of IAF maintenance. It is also bound to raise curiosity in many minds to know more about air force maintenance. The book may act as a lighthouse for a lot of the present serving aeronautical engineers in their progression.
