Economic & Social Rights Report ,2002 **The Report: South Africa 2012** ,2012 World Development Report 2008
World Bank,2007 This work will focus on three themes namely identifying new sources of growth for agriculture making agriculture more effective for poverty reduction and managing the transitions that accompany the transformation of agriculture as economies develop **A Report on the Economic Potential for Irrigation in Botswana** Martin Upton,1969 **Commonwealth Finance Ministers Reference Report** ,2008 **Drought Policies: Case Studies on Mega-droughts for the High Level Experts and Leaders Panel on Water and Disasters (HELP)** Jerome Delli Priscolli ,Kenzo Hiroki ,2019-11-15 This book focuses on mega droughts of the past 20 years Twelve cases from both developed and developing countries are elaborated in the book Its intention is to draw lessons from the cases of extremely severe water shortages so that countries and stakeholders can be better prepared for extreme drought events in the future Several recurrent themes emerge from the diverse case studies and descriptions of programs For example most chapters discuss the necessity to move from reactive compensatory to preventive policies This theme has implications for use of insurance in developing countries e g is insurance encouraging investments to help countries avoid disasters or is it acting mostly in a humanitarian way to compensate for losses to help people Several authors point to the importance of risk assessment and to developing risk based policies for drought This raises statistical issues of how such assessments of uncertainty and risks are done and how they relate to actual occurrence of events Most chapters call for more inter sectoral policies policies which integrate water resources management approaches and to the necessity of raising public awareness of droughts in times of no drought The issue of structural versus nonstructural is clear in most cases While often cast as either or the message that emerges is more one of how do you integrate these approaches Finally a few chapters bring to light how prevention is needed for national security as well as water security In Focus a book series that showcases the latest accomplishments in water research Each book focuses on a specialist area with papers from top experts in the field It aims to be a vehicle for in depth understanding and inspire further conversations in the sector Water Governance for Sustainable Development Stefano Farolfi,2013-06-17 Good management of water resources universally identified as a key aspect of poverty reduction agriculture and food security has proven in practice as difficult to achieve as it is eagerly sought This book edited and authored by leading authorities on water resource management examines the recent changes in governance institutions economics and policies of water covering developing transitional and developed countries with special emphasis on southern African case studies The book examines how water policies institutions and governance have shifted in recent years from supply driven quantitative centrally controlled management to more demand sensitive decentralized participatory approaches Such a move often also implies cost recovery principles resource allocation among competing sectors and privatization The case studies demonstrate that the new policies and legal frameworks have been difficult to implement and

often fall short of initial expectations Using an accessible multidisciplinary approach that integrates economics sociology geography and policy analysis the book untangles the issues and presents best practices for policy and decision makers governments and regulators NGOs and user groups service providers and researchers The overall aim is to show how good water governance structures can be developed and implemented for the benefit of all
