Erotics of Deconstruction Lynn Turner, 2024-11-30 *Erotics of Deconstruction* takes advantage of over a decade of publications from Derrida's seminars to creatively demonstrate the deep material range of deconstruction and emphasise its under recognised erotic nature. It activates psychoanalysis without the long embedded philosophical trajectory that forged the human psychic life and sexuality as categorically distinct from the animal inherent to dialectics and psychoanalysis. Parsed by means of case studies from literature philosophy and visual culture erotics in this volume lap at every edge

The articles deal with historical instruments pitch tuning temperament the nexus between technique and style vibrato the performance implications of musical scores and some of the vexed questions relating to rhythmic alteration. It closes with a section on the musicological challenges to the ideology of the early music movement mounted principally in the 1990s. Leading writers on historical performance practice are represented. Recognizing that significant developments in historically inspired performance have been led by instrument makers and performers the volume also contains representative essays by key practitioners
