Michael Neufeld,2017-04-12 Curator and space historian at the Smithsonian s National Air and Space Museum delivers a brilliantly nuanced biography of controversial space pioneer Wernher von Braun Chief rocket engineer of the Third Reich and one of the fathers of the U S space program Wernher von Braun is a source of consistent fascination Glorified as a visionary and vilified as a war criminal he was a man of profound moral complexities whose intelligence and charisma were coupled with an enormous and some would say blinding ambition Based on new sources Neufeld s biography delivers a meticulously researched and authoritative portrait of the creator of the V 2 rocket and his times detailing how he was a man caught between morality and progress between his dreams of the heavens and the earthbound realities of his life **Windows 11**
