The Czechs In Oklahoma:

The Czechs in Oklahoma Karel D. Bicha, 1980 In 1890 the University of Oklahoma Press published a ten book series titled *Newcomers to a New Land* that described and analyzed the role of the major ethnic groups that have contributed to the history of Oklahoma The series was part of Oklahoma Image a project sponsored by the Oklahoma Department of Libraries and the Oklahoma Library Association and made possible by a grant from the National Endowment for the Humanities In response to numerous requests the University of Oklahoma Press has reissued all ten volumes in the series Published unaltered from the original editions these books continue to have both historical and cultural value for reasons the series editorial committee stated as well Though not large in number as compared to those in some states immigrants from various European nations left a marked impact on Oklahoma s history As in the larger United States they worked in many economic and social roles that enriched the state s life Indians have played a crucial part in Oklahoma s history even to giving the state her name Blacks and Mexicans have also fulfilled a special set of roles and will continue to affect Oklahoma s future The history of each of these groups is unique well worth remembering to both their heirs and to other people in the state and nation Their stories come from the past but continue on the future

From Praha to Prague Philip D. Smith, 2017-10-12

Around the turn of the twentieth century thousands of Czechs left their homelands in Bohemia and Moravia and came to the United States While many settled in major American cities others headed to rural areas out west where they could claim their own land for farming In *From Praha to Prague* Philip D Smith examines how the Czechs who founded and settled in Prague Oklahoma embraced the economic and cultural activities of their American hometown while maintaining their ethnic identity According to Smith the Czechs of Prague began as a clannish group of farmers who participated in the 1891 land run and settled in east central Oklahoma After the town s incorporation in 1902 settlers from other ethnic backgrounds swiftly joined the fledgling community and soon the original Czech immigrants found themselves in the minority By 1930 the Prague Czechs had reached a unique cultural social and economic duality in their community They strove to become reliable patriotic citizens of their adopted country joining churches playing sports and supporting the Allied effort in World War II but they also maintained their identity as Czechs through local traditions such as participating in the Bohemian Hall society burying their dead in the town s Czech National Cemetery and holding the annual Kolache Festival a lively celebration that still draws visitors from around the world As a result Smith notes succeeding generations of Prague Czechs have proudly considered themselves Czech Americans firmly assimilated to mainstream American culture but holding to an equally strong sense of belonging to a singular ethnic group As he analyzes the Czech experience in farm town Oklahoma Smith explores several intriguing questions Was it easier or more difficult for Czechs living in a rural town to sustain their ethnic identity and culture than for Czechs living in large urban areas such as Chicago How did the tactics used by Prague Czechs to preserve their group identity differ from those used in rural areas where immigrant populations were the majority In

addressing these and other questions From Praha to Prague reveals the unique path that Prague Czechs took toward Americanization
