The Philosophers Daughter:

Gender and Scientific Discourse in Early Modern Culture Kathleen P. Long,2016-04-15 In the wake of new interest in alchemy as more significant than a bizarre aberration in rational Western European culture this collection examines both alchemical and medical discourses in the larger context of early modern Europe How do early scientific discourses infiltrate other cultural domains such as literature philosophy court life and the conduct of households How do these new contexts deflect scientific pursuits into new directions and allow a larger participation in the elaboration of scientific methods and perspectives Might there have been a scientific subculture particularly surrounding alchemy which allowed women to participate in scientific pursuits long before they were admitted in an investigative capacity into official academic settings This volume poses those questions as a starting point for a broader discussion of scientific subcultures and their relationship to the restructuring and questioning of gender roles *All the Kids on My Block* David Hoye,2023-04-10 This is the second edition of Dave s most popular book All the Kids on My Block Dave has added pictures at the beginning of each chapter and a study guide at the end All the Kids on My Block is a recounting of the many experiences that Dave has had with kids during his thirty five years working as a Counselor for Lutheran Social Services in SD Montana and Iowa and as a school social worker and a private practice therapist in Northwest Iowa The joy hope and love that kids shared with the adults in their lives are poignant and heart warming Dave feels that throughout the years he has learned far more from his kids than what he has given to them We hope that you can laugh cry and be moved as you follow this journey with all of Dave s kids

Philosophy for Kids David A. White,2001 Open your students minds to the wonders of philosophy with these exciting activities that can be used individually or by the whole class Each activity appears in the discussion of a question 40 questions in all that will captivate the interests of young students Grades 4 12 **Gareth B. Matthews, The Child's Philosopher** Maughn Rollins Gregory,Megan Jane Laverty,2021-08-26 Winner of the 2022 Book Award of the Philosophy of Education Society of Australasia Gareth B Matthews The Child s Philosopher brings together groundbreaking essays by renowned American philosopher Gareth B Matthews in three fields he helped to initiate philosophy in children s literature philosophy for children and philosophy of childhood In addition contemporary scholars critically assess Matthews pioneering efforts and his legacy Gareth B Matthews 1929 2011 was a specialist in ancient and medieval philosophy who had conversations with young children discovering that they delight in philosophical puzzlement and that their philosophical thinking often enriched his own understanding Those conversations became the impetus for a substantial component of Matthews scholarship from which this book features essays spanning the length of his career Contemporary contributors to the book critically evaluate Matthews scholarship showing where he broke new ground and identifying developments and debates in the fields he helped to initiate They take up pressing challenges including biased idealizations of childhood in children s literature the tensions between teaching philosophy to and doing philosophy with young people the merits of

theorizing childhood without theorizing children and how professional philosophy at once desires and resists a return to childhood This second volume in the Philosophy for Children Founders series is an important resource for philosophers educators and anyone interested in children s philosophical thinking developmental psychology what it means to philosophize with children the nature of childhood and how children s literature goes philosophical It will guide and inspire those who share Matthews conviction that the impulse to philosophize begins in early childhood Contributors in addition to Gareth B Matthews Stephanie Burdick Shepherd Cristina Cammarano Claire Cassidy Stanley Cavell Maughn Rollins Gregory Jennifer Glaser Walter Omar Kohan Megan Jane Laverty Jana Mohr Lone Karin Murris Peter Shea Susan M Turner Susannah Sheffer

The Posthuman Child combats institutionalised ageist practices in primary early childhood and teacher education Grounded in a critical posthumanist perspective on the purpose of education it provides a genealogy of psychology sociology and philosophy of childhood in which dominant figurations of child and childhood are exposed as positioning child as epistemically and ontologically inferior Entangled throughout this book are practical and theorised examples of philosophical work with student teachers teachers other practitioners and children aged 3 11 from South Africa and Britain These engage arguments about how children are routinely marginalised discriminated against and denied especially when the child is also female black lives in poverty and whose home language is not English The book makes a distinctive contribution to the decolonisation of childhood discourses Underpinned by good quality picturebooks and other striking images the book s radical proposal for transformation is to reconfigure the child as rich resourceful and resilient through relationships with non human others and explores the implications for literary and literacy education teacher education curriculum construction implementation and assessment It is essential reading for all who research work and live with children Daughters of Genius James Parton,1885 *The Philosophy of Spiritual Intercourse* Andrew Jackson Davis,1890 *Manual of the International Order of Twelve of Knights and Daughters of Tabor, Containing General Laws, Regulations, Ceremonies, Drill, and a Taborian Lexicon* International Order of Twelve of Knights and Daughters of Tabor,Moses Dickson,1891 **The**
