Original and Classics Illustrated Charles Dickens, 2020-01-28 The Posthumous Papers of the Pickwick Club also known as The Pickwick Papers was Charles Dickens's first novel. He was asked to contribute to the project as an up and coming writer following the success of Sketches by Boz published in 1836. Most of Dickens's novels were issued in shilling instalments before being published as complete volumes. Dickens, still writing under the pseudonym of Boz, increasingly took over the unsuccessful monthly publication after the original illustrator Robert Seymour had committed suicide. With the introduction of Sam Weller in chapter 10, the book became the first real publishing phenomenon with bootleg copies, theatrical performances, Sam Weller joke books and other merchandise. After the publication, the widow of Robert Seymour claimed that the idea for the novel was originally her husband's; however, in his preface to the 1867 edition, Dickens strenuously denied any specific input, writing that Mr Seymour never originated or suggested an incident, a phrase or a word to be found in the book. Dickens, a young writer 24 years old, was working as a Parliamentary reporter and a roving journalist; a collection of his colour sketches mainly of London life had been published as Sketches by Boz. A firm of London publishers, Messrs Chapman, fishhooks were to get caught in their hats and trousers. All these and other misadventures were to be depicted in Seymour's comic plates. At this juncture, Charles Dickens was called in to supply the letterpress that is, the description necessary to explain the plates and connect them into a sort of picture novel such as was then the fashion. Though protesting that he knew nothing of sport, Dickens nevertheless accepted the commission; he consented to the machinery of a club and in accordance with the original design sketched Mr Winkle who aims at a sparrow only to miss it. Only in a few instances did Dickens adjust his narrative to plates that had been prepared for him. Typically, he himself led the way with an instalment of his story and the artist was compelled to illustrate what Dickens had already written. The story thus became the prime source of interest and the illustrations merely of secondary importance. By this reversal of interest, Dickens transformed at a stroke a current type of fiction consisting mostly of pictures into a novel of contemporary London life. Simple as the process may appear, others who had tried the plan had all failed. Pierce Egan partially succeeded in his Tom and Jerry, a novel in which the pictures and the letterpress are held in even balance. Dickens won a complete triumph. In future years, however, Dickens was suspiciously eager to distance himself from suggestions that Pierce Egan's Life in London had been a formative influence. Robert Seymour provided the illustrations for the first two instalments before his suicide. Robert Buss illustrated the third instalment, but his work was not liked by Dickens and the remaining instalments were illustrated by Phiz (Hablot Knight Browne) who went on to illustrate most of Dickens's novels. The instalments were first published in book form in 1837. *The Pickwick Papers* Charles Dickens, 2018-02-16. Charles John Huffam Dickens was an English writer and social critic.
