

The Political Cultures Of Massachusetts

John Kincaid

The Political Cultures Of Massachusetts:

The Political Cultures of Massachusetts Edgar Litt, 1965 *The Concept of Political Culture* Stephen Welch, 2016-07-27
erudite thought provoking and well written Archie Brown Professor of Politics Oxford University The return to prominence of the concept of political culture offers an opportunity to re evaluate its contribution to the social sciences This study casts a broader than usual net embracing not only political science with equal emphasis placed on the concept s use in communist studies but also sociology and history On this basis a distinctive theory of political culture and not merely another typology is developed Political culture instead of being a token in the sterile debate between interest and culture based explanation offers the means of transcending that debate *A Companion to American Cultural History* Karen Halttunen, 2014-01-28 A Companion to American Cultural History offers a historiographic overview of the scholarship with special attention to the major studies and debates that have shaped the field and an assessment of where it is currently headed 30 essays explore the history of American culture at all analytic levels Written by scholarly experts well versed in the questions and controversies that have activated interest in this burgeoning field Part of the authoritative Blackwell Companions to American History series Provides both a chronological and thematic approach topics range from British America in the Eighteenth Century to the modern day globalization of American Culture thematic approaches include gender and sexuality and popular culture

Political Culture and Secession in Mississippi Christopher J. Olsen, 2000-10-19 This groundbreaking study of the politics of secession combines traditional political history with current work in anthropology and gender and ritual studies Christopher J Olsen has drawn on local election returns rural newspapers manuscripts and numerous county records to sketch a new picture of the intricate and colorful world of local politics In particular he demonstrates how the move toward secession in Mississippi was deeply influenced by the demands of masculinity within the state s antiparty political culture Face to face relationships and personal reputations organized around neighborhood networks of friends and extended kin were at the heart of antebellum Mississippi politics The intimate public nature of this tradition allowed voters to assess each candidate s individual status and fitness for public leadership Key virtues were independence and physical courage as well as reliability and loyalty to the community and the political culture offered numerous chances to demonstrate all of these sometimes contradictory qualities Like dueling and other male rituals voting and running for office helped set the boundaries of class and power They also helped mediate the conflicts between nineteenth century American egalitarianism democracy and geographic mobility and the South s exaggerated patriarchal hierarchy sustained by honor and slavery The political system however functioned effectively only as long as it remained a personal exercise between individuals divorced from the anonymity of institutional parties This antiparty tradition eliminated the distinction between men as individuals and as public representatives which caused them to assess and interpret all political events and rhetoric in a personal manner The election of 1860 and success of the Republicans antisouthern free soil program therefore presented an insulting challenge to personal

family and community honor As Olsen shows in detail the sectional controversy engaged men where they measured themselves in public with and against their peers and linked their understanding of masculinity with formal politics through which the voters actually brought about secession Political Culture and Secession in Mississippi provides a rich new perspective on the events leading up to the Civil War and will prove an invaluable tool for understanding the central crisis in American politics *The Heart of the Commonwealth* John L. Brooke, 2005-07-07 Presents a synthetic view of the social grounding of republicanism and liberalism in Worcester County Massachusetts from its settlement to the eve of the Civil War *The Transformation of Political Culture* Ronald P. Formisano, 1983 Not only does this splendid book unearth much fresh material from so well tilled a field as Massachusetts political history It also advances an important and provocative interpretation of the evolution of the American party system The Journal of American History Supersedes everything else written on the Massachusetts politics of the half century after 1790 It is broadly conceived detailed sensitive and often judicious and persuasive The New England Quarterly Focusing on the gradual acceptance of parties by a fundamentally antipartisan society and on the advent of social movements in the 1820s and 1830 and their relation to the formation of mass parties Formisano demonstrates the role of such factors as class industrialization religion and ideology in party formation

Political Culture, Public Policy, and the American States John Kincaid, 1982 Understanding the Founding Alan Ray Gibson, 2007 Over the course of the last century scholars have furiously debated four questions concerning the Founders and their act of creation Were the Framers motivated by their economic interests How democratic was the Framers Constitution Should we interpret the Founding using philosophical or strictly historical approaches What traditions of political thought were most important to the Framers In Understanding the Founding The Crucial Questions Alan Gibson examines the preconceptions that scholars bring to these questions explores the deepest sources of scholars disagreements over them and suggests new and thoughtful lines of interpretation and inquiry Building on his previous work Interpreting the Founding which offers a synoptic overview of the competing perspectives that have informed modern scholarship on the Founders *History of Norfolk County, Massachusetts* Duane Hamilton Hurd, 1884 *Contesting Democracy* Byron E. Shafer, Anthony J. Badger, 2001 Leading scholars provide a comprehensive history of two centuries of U S politics

Contributions from a who's who of political historians **Critical Pluralism, Democratic Performance, and Community Power** Paul Schumaker, 1991 Who governs is a central question in political science Typically political scientists address this question by relying upon either empirical analysis which explains existing political practices or normative analysis which describes ideal political practices Controversies of State and Local Political Systems Mavis Mann Reeves, Parris N. Glendening, 1972 History of Essex County, Massachusetts Duane Hamilton Hurd, 1888 *The Presidency of Andrew Jackson* Donald B. Cole, 1993 In 1829 Andrew Jackson arrived in Washington in a carriage Eight years and two turbulent presidential terms later he left on a train Those years among the most prosperous in American history saw America

transformed not only by growth in transportation but by the expansion of the market economy and the formation of the mass political party Jackson's ambivalence and that of his followers toward the new politics and the new economy is the story of this book. Historians have often depicted the Old Hero or Old Hickory as bigger than life so prominent that his name was wed to an era. Donald Cole presents a different Jackson, one not always sure of himself and more controlled by than in control of the political and economic forces of his age. He portrays Jackson as a leader who yearned for the agrarian past but was also entranced by the future of a growing market economy. The dominant theme of Jackson's presidency, Cole argues, was his inconsistent and unsuccessful battle to resist market revolution. Elected by a broad coalition of interest groups, Jackson battled constantly not only his opponents but also his supporters. He spent most of his first term rearranging his administration and contending with Congress. His accomplishments were mostly negative: relocating Indians, vetoing road bills and the Bank bill, and opposing nullification. The greatest achievement of his administration, the rise of the mass political party, was more the work of advisers than of Jackson himself. He did, however, make a lasting imprint. Cole contends that through his strength of passions and especially his anxiety, Jackson symbolized the ambivalence of his fellow Americans at a decisive moment, a time when the country was struggling with the conflict between the ideals of the Revolution and the realities of nineteenth-century capitalism.

The Reform of State Legislatures and the Changing Character of Representation Eugene W. Hickok, Jeffrey Leigh Sedgwick, 1992 To find more information on Rowman Littlefield titles please visit us at www.rowmanlittlefield.com

Henry Adams James P. Young, 2001 In this revisionist study, Young denies that Adams was a reactionary critic of democracy and instead contends that he was an idealistic though often disappointed advocate of representative government. Young focuses on Adams's belief that capitalist industrial development during the Gilded Age had debased American ideals and then turns to a careful study of Adams's famous contrast of the unity of medieval society with the fragmentation of modern technological society.

BOOK JACKET **Harper's Weekly** John Bonner, George William Curtis, Henry Mills Alden, Samuel Stillman Conant, Montgomery Schuyler, John Foord, Richard Harding Davis, Carl Schurz, Henry Loomis Nelson, John Kendrick Bangs, George Brinton McClellan Harvey, Norman Hapgood, 1875 *Political Science* Robert Bartlett Harmon, 1972 *Ratifying the Constitution* Michael Allen Gillespie, Michael Lienesch, 1989 How the United States Constitution was ratified by Delaware, Pennsylvania, New Jersey, Georgia, Connecticut, Massachusetts, Maryland, South Carolina, New Hampshire, Virginia, New York State, North Carolina, Rhode Island **Harvard Political Review**, 1996
