The Cook's Decameron W. G. Waters, 2015-03-29 *The Cook's Decameron A Study in Taste* The Classic Professional Italian Cookery Book Containing Over Two Hundred Recipes For Italian Dishes By Mrs W G Waters *The Cook's Decameron A Study In Taste* Containing Over Two Hundred Recipes For Italian Dishes is a cookbook by Mrs W G Waters that was published in 1901 and is now in the public domain. It contains over two hundred recipes for Italian dishes in search of the ristorante at which the better class of townsfolk were wont to take their colazione. Indeed whenever an Englishman does break fresh ground in this direction he rarely finds sufficient presence of mind to controvert the suggestions of the smiling minister who having spotted his Inglese at once marks down an omelette aux fines herbes and a biftek aux pommes as the only food such a creature can consume. Thus the culinary experiences of Englishmen in Italy have led to the perpetuation of the legend that the traveller can indeed find decent food in the large towns because the cooking there is all French you know but that if he should deviate from the beaten track unutterable horrors swimming in oil and reeking with garlic would be his portion. Oil and garlic are in popular English belief the inseparable accidents of Italian cookery which is supposed to gather its solitary claim to individuality from the never failing presence of these admirable but easily abused gifts of Nature. *The Cook's Decameron* W. Globalising Housework Laura Humphreys, 2021-04-26 This book shows how international influences profoundly shaped the English home of Victorian and Edwardian London homes which in turn influenced Britain's and Britons' place on the world stage. The period between 1850 and 1914 was one of fundamental global change when London homes were subject to new expanding influences that shaped how residents cleaned, ate and cared for family. It was also the golden age of domesticity when the making and maintaining of home expressed people's experience of society, class, race and politics. Focusing on the everyday toil of housework the chapters in this volume show the English home as profoundly global conglomeration of people, technology and things. It examines a broad spectrum of sources from patents to ice cream makers and explores domestic histories through original readings and critiques of printed sources, material culture and visual ephemera.
