Firs 1896 is considered Jewett's finest work described by Henry James as her beautiful little quantum of achievement. Despite James's diminutives the novel remains a classic. Because it is loosely structured many critics view the book not as a novel but a series of sketches however its structure is unified through both setting and theme. Jewett herself felt that her strengths as a writer lay not in plot development or dramatic tension but in character development. Indeed she determined early in her career to preserve a disappearing way of life and her novel can be read as a study of the effects of isolation and hardship on the inhabitants who lived in the decaying fishing villages along the Maine coast. **A Country of the Pointed Firs - Scholar's Choice Edition** Sarah Orne Jewett, 2015-02-18
