The Cultural Revolution In The Provinces:

The Cultural Revolution in the Provinces Ezra Vogel, Margie Sargent, Vivienne B. Shue, Thomas Jay Mathews, Deborah S. Davis, 2020-03-17 Four case studies all revisions of papers originally prepared for a seminar on Chinese Communist society held in the spring of 1970 at the East Asian Research Center Harvard University

The Cultural Revolution in the Provinces, 1971 Revolutionary Committees in the Cultural Revolution Era of China Peijie Wang, 2017-10-11 This book analyzes Revolutionary Committees during the Cultural Revolution period in the People's Republic of China. It aims to draw serious scholarly attention to and bring about an impartial assessment of the events in this period independent of partisan hysteria. The project explains what the Revolutionary Committee was composed of, how it formed, and how it differed from the pre and post Cultural Revolution governance institutions.

Collective Killings in Rural China during the Cultural Revolution Yang Su, 2011-02-21 The violence of Mao's China is well known, but its extreme form is not. In 1967 and 1968 during the Cultural Revolution, collective killings were widespread in rural China in the form of public execution. Victims included women, children, and the elderly. This book is the first to systematically document and analyze these atrocities, drawing data from local archives, government documents, and interviews with survivors in two southern provinces. This book extracts from the Chinese case lessons that challenge the prevailing models of genocide and mass killings and contributes to the historiography of the Cultural Revolution, in which scholarship has mainly focused on events in urban areas.

Development of the Constitutions in China and the Visegrad States Lu Da, 2021-08-30 This book deals with the development of constitutional law in China and Visegrad states by employing a comparative perspective. It is the first time that the researcher compared the constitutional development in the China and the Visegrad states. It offers a few glimpses of development of constitution in the former socialist states to readers who are interested in the constitutional law or China-V4 relations. With the increased cooperation between China and V4 countries, this book gives the undergraduates in the university to think about the BRI and 17+1 network from a Chinese perspective. Last, compared to the previous works which mainly focus on North America and/or Western Europe, this book provides a new angle on comparative constitutional law.

Revolutionary States, Leaders, and Foreign Relations Houman A. Sadri, 1997-04-16 This book compares and contrasts the foreign relations strategies of China, Cuba, and Iran in the first decade of their post-revolutionary periods. Among a variety of explanatory variables, leadership, particularly the type of revolutionary leaders, played a significant role in explaining the outcome of the policymaking process in each case. Three distinct patterns of foreign relations strategies are evident among all three revolutionary regimes in the ten-year period: Two-Track, Conflictual, and Conciliatory. This book is a valuable source for both experts and non-experts alike in providing insight into the foreign relations of revolutionary regimes in developing

countries and in helping U S policymakers anticipate behaviors of future revolutionary leaders A focal point of this book is the examination of the nonalignment strategies of these prominent developing countries during the infancy of their regimes Each state s particular strategy is described and explained in detail and then contrasted and compared Although there are differences among their foreign policies considering their geographic locations size wealth military capabilities leadership characteristics and political institutions there are significant similarities regarding their foreign policy goals and trends in their foreign relations with the Great Powers Among explanatory factors leadership played a significant role in the policy making process although the foreign relations strategies of these revolutionary regimes were fed by a combination of national and international variables In all three states the tone of foreign policy was set by revolutionary leaders who were either idealists or realists Idealists tended to take a more active and conflictual approach toward one or both of the superpowers while Realists were more cautious and less willing to resort to a conflictual posture This book also investigates the gap between the theoretical and practical nonalignment stance of each state This cross regional study provides policy analysts with clues about the foreign policies of other revolutionary developing countries in similar situations Finally it makes suggestions about how a Great Power may relate to a developing country during its first post revolution decade

China-GDR Relations from 1949 to 1989 Axel Berkofsky,2025-07-13 This book provides an in depth and very lively analysis of relations between China and the German Democratic Republic GDR from 1949 to 1989 It is the first and only comprehensive and detailed analysis of East German Chinese ties and interactions in English Chinese East German relations which over the decades have experienced some highs but many more lows Low points came to the fore in the early 1960s when the Soviet Union ordered its vassal state in East Berlin to treat its former socialist comrade and brother in arms in Beijing as an adversary and even an enemy In fact the Sino Soviet split ensured that until the late 1980s East Berlin and Beijing were more likely to talk about each other than to talk to each other The second revised and extended edition of the book draws on a wealth of East German archival material These include documents and reports from the archives of the GDR s ruling Socialist Unity Party SED the notorious East German Ministry of State Security Stasi and the Ministry of Foreign Affairs Together with extensive secondary literature and almost everything that was ever written about China in East German newspapers from the 1950s to 1990 this book examines selected issues and areas of East German and Chinese domestic and foreign policy placing policies and interactions in their historical context It offers very detailed and well documented insights into the following aspects 1 the bilateral honeymoon period from 1949 to the late 1950s during which both sides supported and applauded each other s oppressive domestic economic policies including Mao s Great Leap Forward and the Cultural Revolution 2 the 1960s when the Sino Soviet split determined the quality and level of bilateral interactions and tensions 3 the 1970s when Beijing replaced socialist comradeship with East Berlin with trade and aid from the US and Germany and 4 the resumption of bilateral

relations in the 1980s The 1970s when Beijing replaced socialist comradeship with East Berlin with trade and aid from the US and West Germany and 4 The resumption of Sino German relations in the 1980s and the subsequent period up to the Tiananmen Square protests and the collapse of the GDR in 1989 The book will appeal to historians political scientists and international relations scholars as well as policymakers and diplomats interested in this under researched area Survey of China Mainland Press United States.
