The Personal Distribution Of Incomes:

The Personal Distribution of Income in an International Perspective Richard Hauser, Irene Becker, 2012-12-06

Irene Becker and Richard Hauser Bringing Income Distribution in From The Cold was the title Anthony B Atkinson gave his Presidential Address to the Royal Economic Society in 1996 This provocative formulation was intended to draw attention to the way in which the subject of income distribution long has been marginalised in the field of economics Atkinson 1997 In recent years however scientific interest in matters of personal income distribution has been growing One reason for this recent concern stems from the political sphere The factors of reinforced competition between countries due to the globalisation of markets and European integration high unemployment rates and demographic changes necessitate reforms of labour markets tax systems and social security systems These reforms will affect both allocation and distribution so that reliable information on both areas is needed to devise balanced political programs Another reason for the burgeoning literature on personal income distribution is the improved availability of data on individual income which are a major prerequisite for detailed analyses of distribution topics Last but not least the development of powerful computers advanced statistics econometric packages and extended micro simulation models enables researchers both to work with huge individual data sets to describe and explain the personal distribution of income and to simulate the effects of political social and economic programs The volume at hand is based on some of the research advances in this field during the last decade

The Personal Distribution of Incomes (Routledge Revivals) A. B. Atkinson, 2013-12-19 First published in 1976 the essays in this volume are concerned with the distribution of income and wealth The papers were first presented at the Royal Economic Society's conference in 1974 which examined the evidence concerning the personal distribution of earnings compared the distributions apparent in different periods and societies and studied the association between personal attributes and income The contributions from internationally renowned authors reflect these areas and address the questions surrounding inequality the taxation of wealth and capital transfers that remain relevant in twenty first century society

Income Inequality in Singapore

Pundarik Mukhopadhyaya, 2014-03-26 The World Bank 1993 conferred on Singapore the status of tiger economy because of its two miraculous characteristics high growth and reduced income inequality Expansion of educational provision is one of the major policies the Government of Singapore followed since 1975 particularly to enrich the human capital endowment of the country which has been crucial to the success of Singapore This book made a coherent study of these extremely important issues to examine the trend and pattern of income inequality in Singapore The book delves further into the trend and pattern of income inequality in Singapore and their implications for the future It attempts to analyse the links between social welfare and inequality in the light of rapid economic growth phase and adduced important policy implications The concepts and methodologies used in this book as well as the novelty of analyses and policy implications make this a coherent and in depth

study of extremely important issues with most up to date observations In the last three decades no such book on Singapore has been written and this book fills the gap in existing literature It is a must read for anyone who is interested to learn more about the tiger economy of Singapore The Personal Distribution of Incomes Anthony Barnes Atkinson,1976 The
