## **The Political Community A Study Of Anomie:**

*The Political Community* Sebastian De Grazia, 1956      *The Political Community* Sebastian de Grazis, 1972      **Anomie** Goddijn, 2025-02-10      **The Concept of Community in Modern Society** Manuel A. Caoili, 1976      Why Men Rebel Ted Robert Gurr, 2015-11-17

Why Men Rebel was first published in 1970 after a decade of political violence across the world. Forty years later serious conflicts continue in Africa, Asia, and the Middle East. Ted Robert Gurr reintroduces us to his landmark work, putting it in context with the research it influenced as well as world events. Why Men Rebel remains highly relevant to today's violent and unstable world with its holistic, people-based understanding of the causes of political protest and rebellion. With its close eye on the politics of group identity, this book provides new insight into contemporary security challenges.

**Pluralism on and off Course** Stanislaw Ehrlich, 2013-10-22

Pluralism on and off Course explains the concept of pluralism as a trend that strives to restrict centralism. The book classifies as pluralistic every trend that opposes uniformity both in social and political structure and in the sphere of culture. The uniformity that centralism inevitably breeds is organized into six chapters. This book particularly tackles pluralism in France, Britain, Germany, and the United States. This text also describes the pluralistic elements in the socialist reconstruction of society. The rationality of pluralism is lastly discussed.

**Old and Alone** Jeremy Tunstall, 2024-05-10

Originally published in 1966, this was the first full-length study by a sociologist of isolation in old age. Although the majority of old people were in no sense a problem group at the time, a substantial minority of the elderly were alone in one or more ways. About 1.3 million people aged 65 and over in Britain lived alone.

**A Theory of Social Control** Richard Tracy LaPiere, 1954      **The Tradition of the Chicago School of Sociology** Luigi Tomasi, 2019-10-16

The value of the book lies in its reassessment of the distinctive features of the Chicago School of its contributions in the theoretical and methodological fields and of its influence on the growth of sociology throughout the world and in America in particular. The book pays particularly close attention to the eclectic nature of the research methods used by the Chicago sociologists as they sought to integrate subjective and objective aspects of human life. It demonstrates that this eclecticism formed an integral part of their theories but also emphasises that empirical observation too was important, although not as an end in itself. While for example they were working on the concepts of organization, marginality, and interaction, they did not consider these as ends in themselves but as additions to the development of a more general theoretical approach. Often in the past, and wrongly, Chicago's theoretical contribution has been restricted to the urban sector. The book clearly and unequivocally reveals how the tendency to see the Chicago School as a theoretical is the result of misinterpretation and of a failure to realize that for the sociologists of the period, understanding the social dynamics of the city of Chicago was tantamount to interpreting the central tendencies of modern society itself. The book analyzes how empirical observation was important but not an end in itself. The Chicago School developed a profusion of sociological theories in many areas of inquiry and never opted for any one particular approach. The various essays in the book also make

it clear that the School decisively contributed to the development of qualitative and quantitative techniques     The American Political Science Review ,1949     **Indian Journal of Psychiatry** ,1977     Social Theory and Social Structure Robert King Merton,1968 This new printing is not a newly revised edition only an enlarged one The revised edition of 1957 remains intact except that its short introduction has been greatly expanded to appear here as Chapters I and II The only other changes are technical and minor ones the correction of typographical errors and amended indexes of subjects and names     Foreign Affairs Bibliography ,1955     **In the Pursuit of Shadows** Kerry A. Trask,1989     **Crime and Criminal Justice in a Declining Economy** Kevin N.
