Investigating key features of contemporary Egypt this volume includes Egypt's modern history politics economics the legal system environment and its media and modes of cultural expression It examines Egypt's capacities to meet developmental challenges ranging from responding to globalization and regional competition to generating sufficient economic growth and political inclusion to accommodate the interests and demands of a rapidly growing population The macrohistory of Egypt is complemented by the microhistories of specific institutions and processes that constitute separate sections in this handbook The chapters revolve around political economy it is shaped by the people and their abilities political and legal institutions organization of the economy natural and built environments and culture and communication Politics has been overwhelmingly authoritarian and coercive since the military seized power in 1952 consequently the contributions address both the causes and consequences of unbalanced civil military relations military rule and persisting authoritarianism in the political society This multidisciplinary handbook serves a dual purpose of introducing readers to Egypt's history and contemporary political economy and as a comprehensive key resource for postgraduate students and academics interested in modern Egypt

The Political Economy of Reforms in Egypt Khalid Ikram, 2018 Drawing on Khalid Ikram's extensive knowledge of economic policymaking at the highest levels The Political Economy of Reforms in Egypt lays out the enduring features of the Egyptian economy and its performance since 1952 before presenting an account of policy making growth and structural change under the country's successive presidents to the present day

The Political Economy of the Egyptian Revolution R. Roccu, 2013-11-22 While the 2011 Egyptian revolution has already become the subject of much debate the roots of the socio economic context which made the revolution possible have seldom been explored Roberto Roccu addresses this gap and in doing this provides the first detailed study of the deeper causes of the Egyptian revolution Relying on an innovative understanding of Antonio Gramsci's thought He argues that economic reforms implemented since the late 1980s provided the conditions for both the emergence of a capitalist oligarchy within the regime and an unprecedented rise in socio economic inequality in society at large These two processes substantially eroded any remnants of hegemony leaving the Mubarak regime ill equipped to face the global economic crisis By alienating sections of the ruling bloc while impoverishing vast strata of the population neoliberal reforms provided a necessary although by no means sufficient condition for the Egyptian revolution to occur

Egypt in the Twenty First Century M. Riad El-Ghonemy, 2003-07-03 An overview of the political economy and development of contemporary Egypt focusing on the nature and extent of economic reform and restructuring in the last twenty years

Market Economy and Urban Change Mohamed Hamza, Roger Zetter, 2013-06-17 Across the developing world the preceding decade or so has witnessed a profound reconfiguration of the political economy of

urban policy This new policy environment is driven by globalization the neo liberal macro economic package of market enablement and structural adjustment which now form the dominant development paradigm The consequences of this approach for urban development agendas and ultimately the lives and livelihoods of millions of people across the globe are profound Market Economy and Urban Change explores and evaluates urban sector and development policies in the context of market enablement and the associated instruments of structural adjustment urban management reform and good governance By articulating the linkages between this neo liberal development paradigm and the way different actors in the urban sector enact policy responses the book provides an understanding of both the factors driving market enablement and its impacts on urban sector policies and programmes With case studies drawn from countries such as Egypt Mexico Kenya Brazil Colombia and transitional economies the book focuses in particular on the implications for land shelter and related sectoral policies for poverty alleviation By linking policy to practice the book seeks to inform policy makers in governments donor and implementing agencies of the impact of shifts in the development debate on urban sector strategies **Routledge**
