The Pimlico Dictionary Of Classical Civilizations:

The Pimlico Dictionary Of Classical Civilizations Arthur Cotterell, 2011-06-30 An original and unique work of reference which breaks new ground by treating for the first time the classical era of the Old World as a whole. Never before have the key peoples and events of Greece, Rome, Persia, India, and China been encompassed in a single volume despite the fact their civilizations had much in common and laid the foundations of present day Europe and Asia. Arthur Cotterell asserts that for too long Greece and Rome have been regarded as the classical world and its study isolated from even the major powers that confronted the Greeks and Romans in Iran and India. Today we are more aware of the complex interrelations that once existed between the Greeks and the Persians, the Macedonians and the Indians, the Romans and both the Persians and the Sasanians. The persistent isolation of China on the other hand, cut off by mountains and deserts from India, makes the classical experience there so useful for comparison and contrast. The virtual absence of slavery in China is but one of its startling features. Comprehensive, wide ranging and lavishly illustrated, *The Pimlico Dictionary of Classical Civilizations* provides a fascinating overview and a detailed analysis of the formative period of the world, making it indispensable for both students and the general reader.

The Pimlico Dictionary Of Classical Mythologies Arthur Cotterell, 2012-01-31 *The Pimlico Dictionary of Classical Mythologies* is a unique work of reference which breaks new ground by treating for the first time the classical mythologies of the Old World as a whole. Never before have the mythologies of Greece, Rome, Persia, India, and China been encompassed in a single volume despite the fact that the first four have much in common through their Indo-European ancestry. Arthur Cotterell shows how much more can be understood about classical mythology by comparison and contrast of its five major traditions. Another key aspect of *The Pimlico Dictionary of Classical Mythologies* is that the myths are not simply recounted; their least accessible features are helpfully interpreted by reference to the culture in which they arose. Thus, for example, the profound influence of the Iranian prophet Zoroaster's thinking on Persian mythology is made clear along with the far-reaching consequences its adoption would later have for Christian thought. *The Pimlico Dictionary of Classical Mythologies* also includes over two hundred original illustrations which have been specially commissioned in order to reveal how gods and goddesses, heroes and heroines, sages, villains, and demons were actually envisaged during the classical period. Taken together with the well-devised entries and the informative introduction, these unusual illustrations make *The Pimlico Dictionary of Classical Mythologies* an indispensable handbook for both students and the general reader.

East Asia
Arthur Cotterell, 2011-04-30 In recent decades there has been a dramatic transformation around the Pacific Rim. No longer the Far East, that exotic, mysterious land at the distant fringe of Western consciousness, East Asia today commands the attention of the entire world. In *East Asia*, Arthur Cotterell condenses into a compact, highly readable book an immense amount of historical knowledge, placing this amazing economic development in its proper perspective. An Asian one, Cotterell ranges from the dawn of Chinese civilization to Japan's emergence as the first East Asian nation to develop an industrial

economy And he brings his history up to the present examining America's setbacks in the Korean and Vietnam Wars Japan's rise as an economic superpower and the recent histories of countries such as reunited Vietnam Indonesia and Singapore Cotterell goes on to suggest that Japan will eventually be overtaken by its neighbours concluding that relations between the Chinese and the Japanese will ultimately determine the future of East Asia although over the coming decades the key Pacific partners remain China and the United States With spectacular historical perspective Arthur Cotterell performs an invaluable service to all those who wish to have deeper understanding of our newest and most competitive trading partners 1998 Massimo Mastrogregori,2013-05-08 Annually published since 1930 the International bibliography of Historical Sciences IBOHS is an international bibliography of the most important historical monographs and periodical articles published throughout the world which deal with history from the earliest to the most recent times The works are arranged systematically according to period region or historical discipline and within this classification alphabetically The bibliography contains a geographical index and indexes of persons and authors China Arthur Cotterell,2011-08-31 One of the most far reaching events since the Second World War is the re emergence of China as a world power and its present government's willingness to open up the country to the rest of the world This comprehensive cultural history ranges from prehistoric times to the present from the disunity of Pre Imperial China to the renaissance of the Sung and Tang dynasties from the Mongol conquest to Tiananmen Square and the 1989 student revolt By placing the modern country in historical perspective this brilliant study reveals how many continuities there are within the oldest of all civilizations Ritual Sacrifice Brenda Ralph Lewis,2007-01-15 The principle of sacrifice is as old as human life itself This book provides an overview of sacrificial practices around the world since prehistoric times It also examines the reasons behind these rituals and in the case of human sacrifice an attempt is made to understand the mentality of the victims who often willingly went to their deaths

rode in chariots In 326 BC Alexander the Great faced charioteers in northern India while in 55 BC on a Kent beach Julius Caesar was met by British chariots Because of the danger involved chariot racing attracted hundreds of thousands of spectators So enthusiastic were they that the Roman emperor Nero could not resist driving his own ten horse chariot at the Olympic Games he fell out but still won the prize Rivalry between groups of spectators at chariot races often ignited urban riots In Constantinople in 532 AD a three day disturbance left 30 000 dead
