Hemispheric Imaginations Helmbrecht Breinig, 2016-12-06 What image of Latin America have North American fiction writers created found or echoed and how has the prevailing discourse about the region shaped their work How have their writings contributed to the discursive construction of our southern neighbors and how has the literature undermined this construction and added layers of complexity that subvert any approach based on stereotypes Combining American Studies Canadian Studies Latin American Studies and Cultural Theory Breinig relies on long scholarly experience to answer these and other questions Hemispheric Imaginations an ambitious interdisciplinary study of literary representations of Latin America as encounters with the other is among the most extensive such studies to date It will appeal to a broad range of scholars of American Studies *A Historical Geography of Christopher Columbus's First Voyage and his Interactions with Indigenous Peoples of the Caribbean* Al M. Rocca, 2024-05-02 This book offers a unique account of Christopher Columbus's first voyage the most consequential voyage in world history It provides a detailed day by day account of the explorer's travels and activities richly illustrated with thematic maps This work expands our understanding of Columbus's first voyage by mapping his sea and land experiences offering both a historical and geographical exploration of his first voyage Traveling chronologically through events the reader builds a spatial insight into Columbus's perspectives that confused and confirmed his pre-existing notions of Asia and the Indies driving him onward in search of new geographic evidence Drawing from a diverse range of primary and secondary historical resources this book is beautifully adorned with illustrations that facilitate an in depth exploration of the connections between the places Columbus encountered and his subsequent social interactions with Indigenous people This methodology allows the reader to better understand Columbus's actions as he analyzes new geographic realities with pre-existing notions of the Indies Attention is given to Columbian primary sources which analyze how those materials have been used to create a narrative by historians Readers will learn about the social and political structures of the Lucayan Ta no and Carib peoples achieving a deeper understanding of those pre Columbian cultures at the time of contact The book will appeal to students and researchers in the disciplines of history geography and anthropology and the general reader interested in Columbus *Stories of the Three Americas* Eunice C. Bhambra, John Narayan, 2016-10-26 This book provides a fresh examination of the cosmopolitan project of post war Europe from a variety of perspectives It explores the ways in which European cosmopolitanism can be theorized differently if we take

into account histories which have rarely been at the forefront of such understandings It also uses neglected historical resources to draw out new and unexpected entanglements and connections between understandings of European cosmopolitanism both in Europe and elsewhere The final part of the book places European cosmopolitanism in tension with contemporary postcolonial configurations around diaspora migration and austerity Overall it seeks to draw attention to the ways in which Europe's posited others have always been very much a part of Europe's colonial histories and its postcolonial present
